ABSTRACT

This report is an INTERNSHIP report submitted in partial fulfilment of the requirements for the degree in civil engineering as per norms of VTU. The report consists of various sites visited and different work carried out in different sites and procedures used at the site construction. I put my best to elaborate the actual site conditions and problem faced at site and the strategy used to deal with them. The main objective in this report is to present the fundamental aspects of practical requirements. The sites in this report the objective was to introduce, wherever necessary material which embodies the most advanced and recent methodologies.
