## ACKNOWLEDGEMENT

This Mini-Project will be incomplete without thanking the personalities responsible for this venture, which otherwise would not have become a reality.

We express our profound gratitude to Dr. Narendra Viswanath, Principal, S.I.E.T, for his moral support towards completing our Mini-Project work.

We would like to thank Head of Department Dr. Suhas G K Head, Department of ISE, SIET for providing all the support and facility.

We would like to thank my guide Mr. Kiran G M, Assistant Professor, Department of Computer Science and Engineering, SIET for his help, sharing his technical expertise and timely advice.

We would like to express our sincere gratitude to all teaching and non-teaching faculty of the department of CSE for guiding us of this Internship- project by giving valuable suggestion and encouragement.

By,

DEEPA R ARADHYAMATA [1SV20IS003]

REKHA [1SV20IS010]

REVATHI P.O [1SV20IS011]

## ABSTRACT

Bank Management System is a project where all the banking operations are performed easily and efficiently by computer. Unlike online banking system this bank management system application covers all the transactions like new account opening, deposit and withdrawal of amount as well as transaction of money for various processes. Bank management system will perform all the tasks that any customer may desire. Our aim is to develop a vb project for managing the entire banking process related to customer accounts and their various transaction processes. Our main purpose is the customer's satisfaction. For any system, present satisfaction is important, but it is also necessary to see and visualizes the future scope. Future enhancement is necessary for any system as the limitations that cannot be denied by anybody. These limitations can be overcome by better technologies. In my project, records of the customers and transactions are maintained. It will be helpful for the organization and customer.
