### **Description:**

A Three day workshop was organized by Dept., of CSE on “EMBEDDED SYSTEMS AND IOT” in association with BITES under CSI-SIET student chapter in SIET, Tumakuru from 22-04-2019 to 24-04-2019 for 8<sup>th</sup> & 6<sup>th</sup> Sem CSE & ISE students. The objective of this workshop was to cover the programming in Embedded systems and integration of IOT.

The inauguration ceremony for the workshop was conducted at 9.30AM on 22-04-2019 in Edusat Hall. The inaugural programme was graced by chief guest Sri. Narasimhan.S.M, CEO, Saroja Enterprizes, Mysuru. Guest of honor Sri. M.S.Patil, Director, HR & IT, SCT, Tumakuru, Presided by Dr. M.R. Hulinaykar, Chairman, Sri Shridevi Charitable trust, Tumakuru, Dr. T. Hemadri Naidu, Principal, SIET, Tumakuru, Prof. C V Shanmuka swamy, Convener, Associate Professor & Head, CSE dept., SIET, Tumakuru & Prof. Chethan M S, Assistant Professor &, workshop coordinator, Prof. Raghu Nandan.R Assistant Professor and CSI Coordinator CSE dept. Faculty members of CSE Department and participants (8<sup>th</sup> & 6<sup>th</sup> sem CSE & ISE students) were present in the function. The Master of ceremony was Prof. Raghu Nandan.R , Asst professor, CSE dept. The function started with invocation by Ms. Bhargavi Babu.M 8<sup>th</sup> Sem CSE , welcome speech delivered by Ms. Prarthana.M.G, 8<sup>th</sup> Sem CSE. The inaugural function was inaugurated by lighting the lamp by dignitaries on the dais, Prof. Chethan M S, Assistant professor, CSE dept., introduced the chief Guest Sri. Narasimhan.S.M, Dr. T. Hemadri Naidu, Principal, addressed the gathering and vote of thanks was delivered by Ms. Harshitha.B.C.

The chief Guest Sri. Narasimhan.S.M addressed the gathering. He congratulated the participants and organizers for taking the initiative for organizing workshop Embedded Systems and IOT. He highlighted the scope of Embedded system and integration of IOT. Dr. Hemadri Naidu T, Principal, in his address described about scope of learning new and upcoming technologies that enhances the placement opportunities. He motivated the students to avail best out of this three day workshop and gain insight into design aspects to take up the innovative projects. The inaugural was closed by Thanksgiving. Vote of thanks was offered by Ms. Harshitha.B.C CSE student. She thanked all the invited guests and participants for gracing the occasion by their solemn presence.

**On day-1** the sessions of workshop was started by inauguration. The speaker Sri. Narasimhan.S.M, CEO, Saroja Enterprizes, Mysuru has deliberated the basic programming interface of embedded programming.

The website for the IDE is [www.embed.com](http://www.embed.com) in this website the program can be written and compiled.

## Embedded Design Solutions Workshop

1. Introduction to ARM University program and registration
2. Introduction to Open source Embedded Systems
3. Introduction to the ARM Architecture
4. Introduction to few multiple vendor platforms (NXP, SiLabs, ST Micro etc)
5. Introductions to Boards, Modules and Components
6. Hands on software/firmware for all the experiments listed below

After lunch the afternoon session started, in this session hardware components were distributed to batches and a basic blinky Led program was written. The program was written and compiled for different boards and taught how to load the program into the board.

Hands on (complete H/W and S/W) the below experiments on three platforms

General purpose IO interfaces

Blink LED to start with

PWM output on led ports

Segment LED interface

LCD interface

Key buttons interface

The day ended with lab session on the learnt programs of the day.

**On day-2**, The speaker Sri. Narasimhan.S.M, CEO, Saroja Enterprises, Mysuru; taught about Timer interface, Interrupts handling, ADC interface, DAC Interface. Motor interface, Relay interface, Waveforms generations for specific drives (Sine, Ramp, triangular etc), Different types of Sensors interface (Ultra Sound, Temperature ), Infra red LED interface, USB Interface, RS232 Board to Board communication, Board to PC communications, I2C Board to Board Communications, SPI Board to Board Communications, Details of Module interfaces like Xbee, Blue tooth, Wi-Fi, GSM, GPS etc, Test points are available for waveform measurements with the scope.

**On Day 3** , the resource person thought about the Advance Modular Interface Programming . In the morning session, the students coded temperature variation program, the port consists of Temperature Sensing Unit, LCD Module, Switching Device, Driver, PWM generator,. It will operate based on the values or ranges of temperature in the system which is detected by the Temperature Sensor. The Temperature Sensor consists of an LM35 IC. The temperature sensor is connected to the ADC input of the PIC  $\mu$ C. It converts the analog input to a digital value.

Next student's coded sine and cosine wave signal generation program, to generate sine wave one needs to output various analog voltages of different values between -1 to +1 multiplied by amplitude. Here for the experiment 20 different values, students repeated them thus generating a periodic approximation sine wave.

In an Afternoon session, coding was done for detecting targeted object using Ultrasonic sensors. Ultrasonic Sensors measure the distance of target objects or materials through the air using "non-contact" technology. They measure distance without damage and are

easy to use and reliable. This kind of sensors is very common maker's community as well as industrial applications. They are pretty cheap and interfaced with minimal electrical circuitry setup.

Ultrasonic sensors operations mainly dependent on ultra-sound waves. They send some sound waves in the air, which will reflect back to them to tell how close an object is to the source of the sound wave.

The Resource person Sri. Narasimhan.S.M, CEO, Saroja Enterprizes, Mysuru addressed the gathering of the valedictory function. He expressed his appreciation towards the participant's enthusiasm in the workshop. Dr. Hemadri Naidu T, Principal, SIET, felicitated the resource person and also addressed the gathering. He described about how embedded technology is used in smart cities. The certificates were distributed to the participants by the dignitaries. The participants were given chance for the impression on the workshop. The Valedictory function was closed by Thanksgiving. Vote of thanks was offered by Ms. Chandana H, 8<sup>th</sup> sem CSE student. She thanked all the invited guests and participants for gracing the occasion by their solemn presence.
