Assignment - 1

Information theory and Coding

① With a neat diagram Explain the information system

→ the meaning of the word information in information theory is message. In intelligence this message can be an electric message such as voltage current power speech or picture.

the source which produces these messages is called information source.

Two types of information source

1) Analog

2) Discrete

Analog information source

Ex: microphone camera function generator etc

Discrete information source

Ex: Computer tele type etc

Symbol Rate (Cs): It is the rate at which the source produces symbols.
