Faculty Development Program on “Machine Learning for Engineering” Organized by Department of CSE

Introduction:

A Faculty Development Program (FDP) on machine learning for engineering was organized on 4th November 2019 to 9th November 2019 by Department of Computer Science & Engineering, it aims to equip faculty members with the knowledge and skills required to teach and apply machine learning techniques in engineering education and research.

The objective of an FDP on machine learning for engineering is to create awareness among faculty members about the key concepts and techniques of machine learning, such as:

1. Introduction to Machine Learning: A comprehensive overview of machine learning, its applications, and its role in engineering.
2. Supervised Learning: Understanding supervised learning techniques, such as regression and classification, and their application in engineering problems.
3. Unsupervised Learning: Understanding unsupervised learning techniques, such as clustering and dimensionality reduction, and their application in engineering problems.
4. Deep Learning: Understanding deep learning techniques, such as neural networks, and their application in engineering problems.
5. Natural Language Processing: Understanding natural language processing techniques, such as sentiment analysis and text classification, and their application in engineering problems.
6. Reinforcement Learning: Understanding reinforcement learning techniques and their application in engineering problems.

An FDP on machine learning for engineering aims to provide faculty members with an in-depth understanding of these key concepts and how they can be applied in engineering education and research. The program should also provide opportunities for faculty members to discuss and share their experiences and best practices in teaching and research in the field of machine learning.

The report on an FDP on machine learning for engineering may cover the following topics:

1. Introduction to Machine Learning: A comprehensive overview of machine learning, its applications, and its role in engineering.
2. Machine Learning Algorithms: Understanding different machine learning algorithms and their applications in engineering problems.
3. Feature Engineering: Understanding feature engineering techniques and their importance in machine learning.
4. Model Evaluation: Understanding different model evaluation techniques and their application in engineering problems.
5. Deep Learning: Understanding deep learning techniques, such as neural networks, and their application in engineering problems.
6. Natural Language Processing: Understanding natural language processing techniques, such as sentiment analysis and text classification, and their application in engineering problems.
7. Reinforcement Learning: Understanding reinforcement learning techniques and their application in engineering problems.
8. Case Studies and Applications: Presenting case studies and applications of machine learning techniques in engineering problems.

SHRIDEVI INSTITUTE OF ENGINEERING & TECHNOLOGY

(Recognised by Govt. of Karnataka, Affiliated to VTU, Belagavi and Approved by AICTE, New Delhi)

Sira Road, Tumakuru - 572 106. Karnataka.

The outcome of an FDP on machine learning for engineering can be manifold, depending on the goals and objectives of the program. However, some possible outcomes of an FDP on machine learning for engineering are:

1. Enhanced Understanding of Machine Learning: Faculty members who attend the FDP can gain a deeper understanding of machine learning techniques and their applications in engineering problems.
2. Improved Teaching Practices: The FDP can provide faculty members with opportunities to explore new teaching methods and strategies for teaching machine learning concepts to engineering students.
3. Increased Research Productivity: The FDP can enhance faculty members' research productivity by providing hands-on training on the latest machine learning techniques and platforms for engineering research.
4. Enhanced Collaboration and Communication: The FDP can facilitate collaboration and communication among faculty members and other stakeholders involved in machine learning research and education. They can share their experiences, best practices, and challenges, and develop a shared vision for advancing machine learning in engineering.
5. Improved Learning Outcomes: Ultimately, the FDP's outcome is to improve learning outcomes for engineering students. By equipping faculty members with the knowledge, skills, and tools required to teach and apply machine learning techniques effectively, the FDP can contribute to improving the quality and relevance of engineering education in the digital age.

Workshop on health and safety

On 8-5-2020, a workshop on health and safety was conducted for non-teaching staff members at the Shridevi Institute of Engineering & Technology.

Workshop Content:

A health and safety report workshop for non-teaching staff can be an effective way to educate employees on the importance of health and safety in the workplace and how to prevent accidents and injuries. Here are some ideas for topics that could be covered in such a workshop:

1. Introduction: Provide an introduction to the report, including the purpose and scope of the report, as well as any relevant background information.
2. Risk assessment: Identify potential hazards in the workplace and assess the risks associated with each hazard. This can involve considering factors such as the likelihood of the hazard occurring, the potential severity of the consequences, and the number of people who could be affected.
3. Control measures: Identify and describe the control measures in place to minimize or eliminate the identified hazards. This can include engineering controls, administrative controls, or personal protective equipment.
4. Training and education: Describe the training and education provided to employees on health and safety matters, including the hazards identified, the control measures in place, and emergency procedures.
5. Emergency procedures: Describe the emergency procedures in place for various potential scenarios, such as a fire, chemical spill, or medical emergency. This should include practical guidance on what to do in each situation.

SHRIDEVI INSTITUTE OF ENGINEERING & TECHNOLOGY

(Recognised by Govt. of Karnataka, Affiliated to VTU, Belagavi and Approved by AICTE, New Delhi)

Sira Road, Tumakuru - 572 106. Karnataka.

6. Review and evaluation: Describe the process for reviewing and evaluating health and safety performance in the workplace, including how hazards and incidents are reported and investigated, and how improvements are identified and implemented.
7. Conclusion: Summarize the key findings and conclusions of the report, and make any recommendations for improvement.

Resource Person:

Dr. Chadrappa C P

Vice-Principal, Shridevi Para Medical, Tumkur

Feedback:

The workshop was well-received by the non-teaching staff members. Participants found the content relevant and informative. They appreciated the hands-on practice and the trainer's interactive approach. Many expressed their interest in attending similar workshops in the future.

Workshop on Computer Literacy for Non-Teaching Staff

On December 14th 2019, a workshop on computer literacy was conducted for non-teaching staff members at the Shridevi Institute of Engineering & Technology. The objective of the workshop was to enhance their computer skills and improve their efficiency at work.

Workshop Content:

The workshop covered various topics related to computer literacy, including basic computer operations, file management, internet usage, email etiquette, and online security. The session started with an introduction to computer systems and their components. The trainer explained the importance of computers in today's world and how they are used in different fields.

Basic computer operations, such as using a mouse, and keyboard shortcuts, opening and closing applications, and managing windows, were covered in detail. The trainer demonstrated the use of various software applications, including MS Word, MS Excel, and MS PowerPoint. Participants were also given hands-on practice in creating documents, spreadsheets, and presentations.

File management was another important topic covered in the workshop. Participants learned how to organize their files and folders, create backups, and retrieve deleted files. They were also introduced to cloud-based storage solutions such as Google Drive and Dropbox.

SHRIDEVI INSTITUTE OF ENGINEERING & TECHNOLOGY

(Recognised by Govt. of Karnataka, Affiliated to VTU, Belagavi and Approved by AICTE, New Delhi)

Sira Road, Tumakuru - 572 106. Karnataka.

Internet usage and email etiquette were also discussed in the workshop. Participants learned how to use search engines effectively, browse the internet safely, and avoid online scams. The trainer also explained the importance of creating a professional email address, using proper email etiquette, and avoiding common mistakes such as sending emails to the wrong person.

The workshop concluded with a discussion on online security. Participants were made aware of the risks of using public Wi-Fi networks and how to protect their personal information online. They were also advised to use strong passwords, update their software regularly, and avoid clicking on suspicious links.

Resource Person:

Prof. Basavesha D,

Assistant Professor, Dept of CSE, SIET

Feedback:

The workshop was well-received by the non-teaching staff members. Participants found the content relevant and informative. They appreciated the hands-on practice and the trainer's interactive approach. Many expressed their interest in attending similar workshops in the future.

Conclusion:

The computer literacy workshop for non-teaching staff members at the Shridevi Institute of Engineering & Technology was successful. The participants gained valuable knowledge and skills to help them in their work. The workshop demonstrated the importance of computer literacy in today's world and the need for continuous learning to stay up-to-date with new technologies.

Respected Sir,

Sub: Requesting Permission to conduct a one day workshop for Non-Teaching staff -Reg.

With subject to the above, we have planned to conduct one day workshop for Non-Teaching staff on "**HEALTH AND SAFETY**" on 08/05/2020 . So we kindly request you to grant permission for the same.

Thanking you Sir

Yours faithfully

(Dr. Chandrasekhar N)
