Name: PREETHI. A. PRAKASH USN 15V13EC034

Department ECE Batch 2013-17

Q1. How do you feel your current employment aligns with your Academics?

I am currently pursuing my MBA and I feel my engineering background has definitely helped me have a strong establishment in the same.

Q2. What skills you feel are essential to be imparted to your juniors to succeed in their career?

- Communication skills
- soft skills
- Managerial skills

Q3. Since you graduated, what is your experience from your alma mater?

More practical exposure would have made the experience much better. But overall, alma mater experience has been good.

Q4. Do you have any Suggestions or opinions towards improving the branding of your alma mater?

More emphasis on practical experience, industrial visits / guest lectures would definitely help improve the branding of the alma mater.

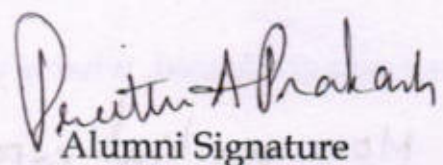

Q5. Are you willing to be an Honorary member of our Training Cell? If so, how would you contribute?

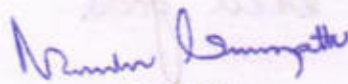

It would be an honour to be a member of the same, but due to my commitments I'd not be able to contribute.

Q6. Any other Comments/Ideas/Suggestions/Opinions.

Department ECE Batch 2013-17

Q1. How do you feel your current employment aligns with your Academics?

Yes, my current employment aligns with the academics.
We work on embedded - C programming.

Q2. What skills you feel are essential to be imparted to your juniors to succeed in their career?

Communication skills.
Less theory and more practical knowledge.
Soft skills.

Q3. Since you graduated, what is your experience from your alma mater?

The experience was good, but more emphasis on practical exposure would have been more helpful.

Q4. Do you have any Suggestions or opinions towards improving the branding of your alma mater?

More concentrations should be towards improving the practical knowledge, and developing managerial skills and more industrial visits as required.

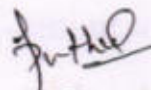

Q5. Are you willing to be an Honorary member of our Training Cell? If so, how would you contribute?

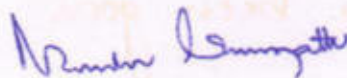

I would like to, but I have professional commitments, that would be a constraint.

Please suggest some measures that can be implemented by the college to enhance the *
learning experience of students for their holistic development.

Encourage active learning: Colleges can encourage students to actively participate in class discussions, debates, and group activities to help them learn better. This helps students to develop their critical thinking, problem-solving, and communication skills. Provide personalized learning opportunities: Colleges can provide personalized learning opportunities to students through one-on-one mentoring, project-based learning, and internships. This helps students to develop their skills and interests, and also prepares them for the job market. Use technology effectively: Colleges can use technology to create engaging and interactive learning experiences for students. This includes using online learning platforms, virtual reality, and gamification to make learning more fun and interesting. Foster a supportive learning environment: Colleges can create a supportive learning environment that encourages students to ask questions, seek help, and collaborate with their peers. This helps students to develop a sense of belonging and helps them to stay motivated and engaged. Encourage community engagement: Colleges can encourage students to engage with the local community through community service and social action projects. This helps students to develop a sense of social responsibility and empathy, and also helps them to develop their leadership skills.

Please suggest some measures that can be implemented by the college to enhance the learning experience of students for their holistic development.

To concentrate more on placement activities

Suggest some ways in which the college can strengthen its alumni network?

By being in constant touch with alumni people.
Can tell the alumni to visit college whenever they are near to Tumkur or sometime they pass by Tumkur to come and address students by which the students get motivated.

Please suggest some measures that can be implemented by the college to enhance the learning experience of students for their holistic development.

Give chance and encourage everyone not just a topper , at the end of the day no one are asking for our marks in company they just see the potential in us ,main thing they see is confidence so make each and every student confident no matter what and encourage the student in pursuing there dream even if it's out of box.

Suggest some ways in which the college can strengthen its alumni network?

Do you think syllabus at the college bridged the gap between theoretical knowledge * and its practical application?

- Yes
- No
- Sometimes

Did the college provide enough opportunities for pursuing extracurricular interests? *

- Yes
- No
- Maybe

Do you think placement cell of the college provided you with sufficient on-campus * placement opportunities and career guidance?

- Yes
- No

Current Occupation

Has the college positively contributed to your personal and professional growth? *

- Yes
- No

How would you rate the relevance of the syllabus at the college for your current job * profile?

- Excellent
- Good
- Fair
- Poor

Do you think college has provided you with a good foundation to cultivate * leadership qualities and a sense of social responsibilities?

- Yes
- No

https://docs.google.com/forms/d/1E_Pv8Lz5c7EVWm8u4mEJ-OP8vqY1v19K129awid7u-4322ba2h#response=ACYDBN7y1gRlyv4y1g0... 24

Please suggest some mearsures that can be implemented by the college to enhance the learning experience of students for their holistic development.

- Highly Satisfactory
- Satisfactory
- Average
- Below Average

How satisfied are you with the college's positive contribution to your personal and professional growth? *

- Highly satisfactory
- Satisfactory
- Average
- Below Average

How would you rate the relevance of the syllabus at the college for your current job profile? *

- Excellent
- Good
- Fair
- Poor

What is your opinion about the role played by the college in developing your leadership qualities and a sense of social responsibilities? *

- Highly Satisfactory
- Satisfactory
- Average
- Below Average

https://www.google.com/forms/d/1K3_WWRNvPZLz8b3uABH_ICU5ZHC00JwOy4T52gub8#response=ACVDSNqP1AujVND30TfjETQg... 2/4

Please suggest some measures that can be implemented by the college to enhance the learning experience of students for their holistic development.

It was very good to be part of SIET, I suggest that to give opportunities to the final year students to do internship so that they can start up their carrier easier way.

Suggest some ways in which the college can strengthen its alumni network?

Please suggest some measures that can be implemented by the college to enhance the learning experience of students for their holistic development.

When I was a student at SIET, I had observed my peers being scared of practical approach and emphasizing more on theoretical knowledge. I didn't find my faculty being pushy and encouraging enough to build that confidence level which could have enhanced the technical skills. I suggest more and more in house projects are encouraged and a mentor-students groups are introduced right from 1st semester. The mentor and the students should work on different real life applications and if possible implement some in campus. This would act as a huge boost in confidence and students from technical background wouldn't shy away from learning and improving upon technical skills.

Suggest some ways in which the college can strengthen its alumni network?

Please start posting in social media. Try and get some engagement in platforms. Alumni cannot be just a day of celebration. Alumni essentially should be a team who can come up with certain activities that can help the society. Ideate some programs that would encourage the alumni to contribute and participate even if the person cannot join physically like Book donation, blood donation, creating fundraiser to fund education of unprivileged and many more.

Please suggest some measures that can be implemented by the college to enhance the
learning experience of students for their holistic development.

More number of skill enhancement sessions and coding hackathons may help students for
their holistic development.

Suggest some ways in which the college can strengthen its alumni network?

Making WhatsApp groups of each batch of alumni from each branch may help! As everyone
will be having WhatsApp and it's easier to communicate/circulate any information!

Please suggest some measures that can be implemented by the college to enhance the learning experience of students for their holistic development.

Apart from the regular curriculum which we laid out by VTU. Students should pass through few phases: Expose, Evolve and Implement. The second year they should be made aware of various technologies in industry which should be explained by industry experts. Their next year students should be in a position to decide where they want to pursue their career that's when they have to evolve. In the final year they should be in a position to implement their learning in some use case which should be encouraged as their Project. Through out this journey it's important that there is a special emphasis on improving soft skills - leadership skills and so on.

Suggest some ways in which the college can strengthen its alumni network?

Start Networking :) you should be in regular touch with atleast two or three from each batch and each branch of a particular year, which should be a formal meeting like say every quarter. List out the challenges college is facing with respect to training or technology or placement.

Those representatives should be able to pass on the information to their batchmates.

That's when there will be a regular interlock and will also give the feeling of contributing back to college.

My suggestion is please don't interfere with Civil engg students goals by approaching them to private sector jobs (specially that placement training). Because we have govt. Sector sector jobs also. We are not happy with Principal Narendra vishwanath and placement officer Anjan Murthy, these two people disturbed civil engg students. We are happy with our Civil Engg staff.

Please suggest some measures that can be implemented by the college to enhance the learning experience of students for their holistic development.

It would be wonderful if the professors and college motivated and gave the students a glimpse of the real time experience.

Suggest some ways in which the college can strengthen its alumni network?

By creating an alumni page in social medias like instagram and updating how the college system is updating.

Please suggest some measures that can be implemented by the college to enhance the learning experience of students for their holistic development.

First of all replace that rupa and mantesh. The money hungry animals of shri Devi.. Always preying on poor northeast students, overpricing everything and deliberately increases the price of everything (hostel fees included) and taking extra money even though the money are already paid in the packages.. And stop failing students just to get couple of bucks for rechecking of questions paper in a nutshell form a committee for audit and spreading awareness of proper fee structure of the illicit members of the college hostel too. As I heard the mess in charge be charging extra money too

Suggest some ways in which the college can strengthen its alumni network?

Kindly return the original documents of the students in given time don't hold it like a ransom.. Genuine Students needs their original certificates and documents to further proceed their study's

Other than theoretical subjects, college should focus on the gap between what companies require and what applicants have in terms of knowledge

Suggest some ways in which the college can strengthen its alumni network?

By scheduling it on Sunday's and informing them prior to one month wud be better.

Please suggest some measures that can be implemented by the college to enhance the learning experience of students for their holistic development.

Be good to the students who are studying now then definitely they will definitely help college in the future days especially the management, bringing some new books to the library don't showcase the age old syllabus books, looking into the laboratories so many lod computers which are supporting the softwares change them, bring new equipments which required to the labs

Suggest some ways in which the college can strengthen its alumni network?

Make some alumni meets, creat department wise what's app group from the beginning, ask is there quires..

Current Occupation

Fresher

Has the college positively contributed to your personal and professional growth? *

- Yes
 No

How would you rate the relevance of the syllabus at the college for your current job profile? *

- Excellent
 Good
 Fair
 Poor

Do you think college has provided you with a good foundation to cultivate leadership qualities and a sense of social responsibilities? *

- Yes
 No

https://docs.google.com/forms/d/1S_Pe8LzSqTIEVWam8z4kmLJ-GP85vj1Vc96120uW/edi7ts=6322ba2b#response=ACYDBNFPZRIgwwy_qYg... 2/4

Suggest some ways in which the college can strengthen its alumni network?

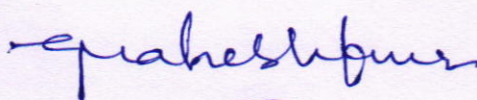

First thing give proper response to the alumni when they were in the college days means when they are the students, don't collect unwanted money in the name of fine, return the convocation fees which you have collected, develop the trust not the unwanted things, provide the new set of books don't showcase the old syllabus books, then coming food please visit the canteen and check out the price of the dishes they were extremely costly that can't be payable by the students please change the canteen or else this institute is killing the students by hunger, then make an auditorium for the Engineering students if self you are collecting the fees regularly along the fine it's shame on you have not having it, treat the students in a good way then definitely when they were alumni they contribute to the institute in a bigger way.

Do you think syllabus at the college bridged the gap between theoretical knowledge * and its practical application?

- Yes
 No
 Sometimes

Did the college provide enough opportunities for pursuing extracurricular interests? *

- Yes
 No
 Maybe

HOD
 Dept. of Civil Engineering

Do you think placement cell of the college provided you with sufficient on-campus placement opportunities and career guidance? *

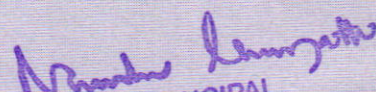

- Yes
 No

Please suggest some measures that can be implemented by the college to enhance the learning experience of students for their holistic development.

1. Develop the labs provide the new computers and equipments which are necessary for the learning.
2. Bring the new set of books which are applicable for the present syllabus.
3. Adopt new technology of learning make availability E-class by the expert teachers from IIT'S, NIT'S.
4. Provide graduation gowns atleast for the graduation.
5. Provide some teachers for the sports sections.

Placement

Thank you

Yes

Good

1. Would be great to have open speak for students, where they speak their interests and skills. 2 Invest more in placement department, recently visited the college and the department was the same with no visual improvement. 3. Stop judging students by their marks and behaviour, Many people from my batch with not much hopes from the lecturers are doing great in various diverse fields. 4. Put in a metric system, wherein a student is assessed all around 360 degree incl studies, sports, extracurriculars, cultural, initiatives etc. 5. Certifications hold a great value during placements, invest more in getting students relevant certificates and internships. 6. Try to build a handy alumini network, so as to in future be a help in helping the junior students. 7. Bring in forums and events to bring senior and junior students onto same page, in future this relationship is of a great help. 8. Try to stick on a single principal at least for 4 years, everybody works in a different manner, professors and lecturers adapting affects students and class. 9. Try conversing in English, it is a basic foundation needed for job related future. 10. Stop giving internals questions to students before the exam dates, I personally think this stops students from exploring new methodologies and efforts to study the subjects. (Sorry for the length)

Giving more practical Knowledge to students

Explore more on practicals and conducting workshops

Guide on research works

Need more practical teaching and soft skills for the development of students

Teach communication skills and how to live in the society other than subjects....

Make sure of campus placement

Be good to the students who are studying now then definitely they will definitely help college in the future days especially the management, bringing some new books to the library don't showcase the age old syllabus books, looking into the laboratories so many old computers which are supporting the softwares change them, bring new equipments which required to the labs

The faculties should have good command over English language, besides being technically sound. During our 1st Sem. we had a teacher whose grammar was zero. even though he was technically good.. We used to laugh at him instead of listening to his lecture.

Give more importance to career building and development of interpersonal skills to the students in final year

The teaches are all too supportive and good with students. But Mainly the communication process have to be improve means apart from our mother tongue we have to move forward... And one more have to be conduct some activities like to encouragement for students regarding to kill the stage fear like this way all about soft skills. And compare to IT sector the placement opportunities are nil for core sector students .. Really its too sad i think it must necessary to give the preference to it for the core field also.

It would be wonderful if the professors and college motivated and gave the students a glimpse of the real time experience.

Campus selection

Give more opportunities, drives for core branches

Complete the syllabus completely

Plz take care of ur student of field knowledge

More practicality education required for the students than theoretical.

Self study

MBA is not a Education it's Built our Life and Career above what we Expected, Respect and Learn Education what ever you are planning. Respect Faculty they will Give one best shape for Our Next 40-50years of Life till we breath last

Keep interest more in syllabus as well as knowledge

Nothing iam suggesting it is excellent college

N. Srinivas
PRINCIPAL
SIET. TUMKUR.

Let them have practical exposure to the corporate world and understand the reality rather than being in myth that degree certificate only provide everything

Required some sessions from external organisation for better understand of the students how the organisation work.

Assignments should be on realistic topics.

Please Improve the Placement Opportunities

Provide more book facility in library related to their subjects

Kindly work towards improving Communication and strong hold of English Language

Inviting more companies on campus placement selection to getting more opportunities to the students

practically enhance d students

Workshops

Train for aptitude and coding from 1st year

Give training on the skills which will help a fresher to compete with the current job requirement skill

Improve industrial interaction

Pls provide practical knowledge by inviting professionals working in different fields

1. Start giving mini projects or practical assignments from the second year itself, 2. Alumni can be contacted to get problem statement, students and solve these 3. Push towards doing internships in reputed organisations 4. Ask them to enjoy college life as it's one off along with learnings, percentage never mattered outside

Need more practical knowledge so that student may know what he is going to face in his possible future.

Improve Campus placement facility

First of all replace that rupa and mantesh.. The money hungry animals of shri Devi.. Always preying on poor northeast students, overpricing everything and deliberately increases the price of everything (hostel fees included) and taking extra money even though the money are already paid in the packages.. And stop failing students just to get couple of bucks for rechecking of questions paper in a nutshell form a committee for audit and spreading awareness of proper fee structure of the illicit members of the college ,hostel too. As I heard the mess in charge be charging extra money too

Placement cell still needs improvement

Need good infrastructure

More importance to be given to the students individual personality development. Ample scope to be provided in improving the all practical knowledge while entering the outside worldt

Conducting more technical talk by industry experts of current technology

Good to have industrial visit which will help students to get how topic learnt are getting used by company

When I was a student at SIET, I had observed my peers being scared of practical approach and emphasizing more on theoretical knowledge. I didn't find my faculty being pushy and encouraging enough to build that confidence level which could have enhanced the technical skills. I suggest more and more in house projects are encouraged and a mentor-students groups are introduced right from 1st semester. The mentor and the students should work on different real life applications and if possible implement some in campus. This would act as a huge boost in confidence and students from technical background wouldn't shy away from learning and improving upon technical skills.

More number of skill enhancement sessions and coding hackathons may help students for their holistic development.

Mou with OEM

College needs to build the brand like SSIT and SIT, may be good marketing.

Provide more aptitude classes and programming classes starting from 3rd year than in final year

Placements

By promoting relevant learning experiences and by career guide

M. Tech students not getting placement

Employ more programming knowledge to students by creating a collaboration group among seniors and juniors

Don't tell always read syllabus u have to u give outside education regarding job

Try to provide more practical knowledge than theoretical for the students to showcase their technical skills

Expert Lecture from Former Students who are already working in IT Sector, As Businessman, Pursuing Higher Education, Doing Enterprunership, and many other things to adopt to this fast changing world.

Please provide more placement for students

Poor collage

Please increase the number of class rooms and Labs.

Create some coding peer group that can focus on problem solving and algorithm.

Practical classes should be conducted more

Give a support to student building their self confidence for achieve something

Conduct training VLSI related courses both backend & front end

Arrange industry experts sessions to them in every month

Please guide a students which way is best to grown up

Being cs background i would like to mention here,make and Help them to create a group do extra activities like coding , hackthon,seminar ..extra, those student Who involved in such kind of activities give extra recognize at college level.

Practical exposure/Hackathons/projects/internship

Student based teaching and student community clubs

Arrange more and more technical trainings and it would be better when an alumni student shares his experience with students and students can ask questions to them. It should be like a 30min session where a student connects with alumni.

Lots of Activities(no matter what kind of - which keeps everybody Active in College)
Encouragement, and Positivity!!!

Trying new things skills

Implement Skill development classes

Motivate students and encourage them .

All good no changes required

Motivating tge students

Should focus on hosting more technical fests and increase on campus placement opportunities.

Conduct moer workshops regarding trending technical concept
