

## Annual E Governance Report-2022-23

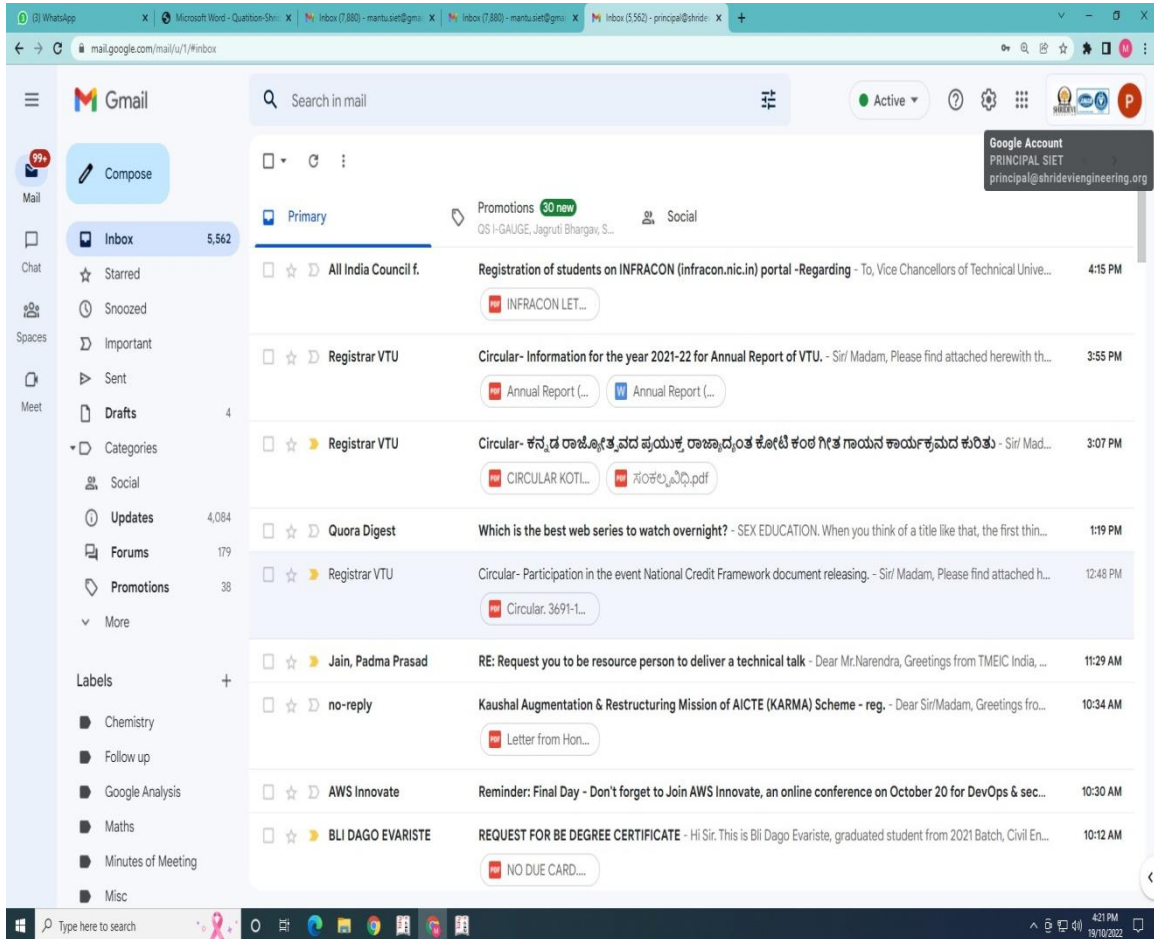

An annual e-Governance report provides a comprehensive overview of the progress, achievements, challenges, and future plans related to e-Governance initiatives within a government or organization over a specific year. The report typically highlights the implementation and impact of digital solutions on governance processes in area of

1. Administration
2. Finance and Accounts
3. Student Admission and Support
4. Examination.

### 1. Administration

The institution has a very good communication system communicating to all HODs through mail and as well as WhatsApp group. The e-governance has been effectively used for maintaining the attendance of staff members through bio metric. Grievance form has been easily available in the college website any student can fill the grievance which will be addressed by Grievance redressal cell. The faculty feedback from the students will be taken an online system.

## 2. Finance and Accounts

The implementation of e-Governance in the areas of finance and accounts can significantly enhance efficiency, transparency, and accountability in public sector financial management. Adoption of integrated accounting software can streamline the recording, tracking, and reporting of financial transactions. This includes managing ledgers, balance sheets, and income statements more efficiently. The fee payment made it quite easy to students. The institution has provided students to pay it on online through scanning QR code and as well as online transfer method such as NEFT n RTGS are allowed. The institution has adopted digital payment system such as salary for employees, vendor and suppliers. The screenshots has been attached below

### 3. Student Admission and Support

Implementing e-Governance in student admission and support processes can greatly enhance the efficiency, accessibility, and transparency of educational institutions. The institution in order to support the student admission it provided an option of getting admitted through online mode. Developed and maintain online portals where students can submit admission applications, track their status, and receive updates. This reduces paperwork and streamlines the process. The KEA portal and as well as Comed K portal as enabled for students to track their admission process. The institution has a mechanism of collecting SIET SSP data input form by using Google forms the same process has been used for students placements also. In order to ensure the smooth communication to students the WhatsApp group for students, parents and student's placements WhatsApp group has been enabled from the institution.

## 4. Examination

Implementing e-Governance in the examination process can revolutionize how educational institutions manage exams, grading, and results, making the entire system more efficient, transparent, and secure. The institution has provided an option of filling the exam on online mode and even exam fee payment also through online only. The institution has an option of downloading question paper through digital system called Question paper delivery System (QPDS). The screenshots of exam related activities have been attached below.

In conclusion, the implementation of e-governance marks a transformative shift in administration, harnessing the power of digital technologies to enhance the efficiency, accessibility, and transparency in institution. E-governance represents a significant advancement in the way institution operates and interacts. By leveraging technology to improve service delivery and foster greater engagement, e-governance has the potential to create more effective, transparent, and responsive. However, it is imperative for institution to remain vigilant and proactive in addressing the challenges associated with digital transformation to ensure that the benefits of e-governance are realized fully and equitably. We hereby submitting the e-governance report for the governing council approval.
