FACULTIES USING ICT TOOLS

Information and Communication Technology (ICT) is a mode of communication technology used to communicate ,enhance, and optimize the delivery of information in the classroom by the teachers.ICT is the most effective mode of communication used in teaching learning process to improve the students learning ability, attention, subject interest, and creativity. Basically ICT improves the quality of education and motivates the students to learn more and create active participation.

ICT enabled teaching helps students in increasing the grasping powers. Teaching methodology is made innovative and effective with the use of ICT tools ensuring effectiveness of teaching – Learning process.Allmost all the faculty members use ICT enabled services. Power point presentations, seminars using modern techniques are used to enrich the knowledge of students. These ICT enabled tools served our purpose to maximum extent during the pandemic.

The Shridevi institute of Engineering and Technology conducts programmes in different areas like e-content development, use of ICT tools in teaching and learning processes, use of Learning Management Systems like Moodle, Google class room to sentize and motivate the teachers to adopt learner –centered approaches and new pedagogical approaches to teaching and learning processes. Teachers created their own you tube vedios which are available for the students.
