1. EXPERT LECTURE CONDUCTED ON RECENT TRENDS IN IOT:

Event Conducted : *EXPERT LECTURE*
Date : 02/09/2018
Time : 10:30 am to 12:30 pm
Venue : Edusat Hall, Dept of ECE, SIET
Targeted Audience : Students of IV, VI and VIII sem ECE
No. Of Students participated: 75
Resource Person : Mr. Viveka Hegde
Founder of Vitvaraa Electronics Pvt Ltd.
Banglore-38
Ph. No. 9480417322
Lecture on : Recent Trends in IOT

Photos of Recent Trends in IOT

2.TWO DAYS WORKSHOP ON ANALOG DESIGN

Title	: Analog design
When	: 15.11.2018 to 16.11.2018
Where	: Shridevi Institute of Engineering & Technology ,Tumkur
Category	: workshop
Target Audience	: Students of 3rd & 5th Semester of ECE & EEE
No. Of Students participated:	82
Venue	: EDUSAT Hall & VLSI Lab
TIME	: 9:30 am to 4:30 pm
Resource Person	: Sri Saragur Narasimhan, System Architect, Saroja Enterprises & Saragur Systems,Mysuru

**In collaboration with Shridevi Institute of Engineering & Technology and BITES
announces two days workshop on**

Analog Design

**Venue – EDUSAT Hall,ECE Department, Shridevi Institute of Engineering & Technology, Sira Road,
Tumkur
November 15 & 16, 2018.**

Description:

It was the great day for ECE & EEE Dept. of SIET when the Two Days Hands-on Workshop on Analog design was inaugurated by the principal Dr.T Hemadri Naidu, presence of Vice Principal Dr. H.B. Paniraju, HOD Dept. of ECE Mr. Aijaz Ahamed Sharief & coordinator madhu B.C dated on November 15, 2018

Workshop Summary:

This is two days orientation workshop to analog design. Sri Saragur Narasimhan, System Architect, Saroja Enterprises & Saragur Systems,Mysuru taught the students introduction about analog design and analog mathematics, simulations on opamp such as differential opamp, integrator and inverting and non inverting amplifiers ,non inverting summer ,MOSFET ,Differential opamp. the simulations conducted using software tina done by hands-on experience. This workshop gives an exposure to participants about analog design, simulation & its applications. we are thank full to Sri Saragur Narasimhan, System Architect, Saroja Enterprises & Saragur Systems,Mysuru & sri KNM murthy, chairman, BITES on behalf of management, principal ,staffs & students.

Inauguration of workshop on Analog design

3.TWO DAYS WORKSHOP ON MACHINE LEARNING AND ITS APPLICATIONS

Title: MACHINE LEARNING AND ITS APPLICATIONS

When: 19-11-2018 to 20-11-2018

Where: Shridevi Institute of Engineering & Technology ,Tumkur

Category: workshop

Target Audience: Students of CSE Department

No. Of Students participated: 82

Venue : EDUSAT Hall,SIET,Tumkur

Time : 9:30 am to 5:30 pm

Resource Person: Sri Dr. Dinesh R, Engineer, Samsong Electro Mechanics Bangalore

Certificate distributed event of workshop on machine learning and its applications

5. WORKSHOP ON BIG DATA AND DATA ANALYTICS

Title: Big Data And Data Analytics

When: 22-03-2019

Where: Shridevi Institute of Engineering & Technology ,Tumkur

Category: workshop

Target Audience: Students of CSE Department

No. Of Students participated: 82

Venue : EDUSAT Hall,SIET,Tumkur

Time : 9:30 am to 5:30 pm

Resource Person: Dr. Pradeep Patil, Director, Skenper Technologies Tumkur

The flyer is for a workshop on Big Data & Data Analytics. It features the Shridevi Education logo at the top center, followed by the name of the institute and its affiliations. The event is organized in association with Skenper Technologies. The flyer lists the inauguration by Dr. M. R. Hulinaykar, the chief guest Dr. Pradeep Patil, and the president Dr. Hemadri Naidu T. It also mentions the organizing body, CSI - SIET Student Chapter, and provides the date, time, and venue. A word cloud graphic is present on the right side of the flyer.

2. EXPERT LECTURE ON PROJECT IDEATION FOR LIVELIHOOD

Event Conducted	: Expert lecture
Date	: 26/04/2022
Time	: 10:00 am to 12:30 pm
Venue	: Edusat hall, SIET, Tumkur
Targeted Audience	: 6 th sem Students of ECE Department
No. Of Students participated	: 33
Lecture on	: Project ideation for livelihood
Resource person	: M.S.Jayachandra Aradya, Director, silicon microsystems, Bangaluru.

In collaboration with Shridevi Institute of Engineering & Technology and silicon Microsystems, Bangaluru announces one event on Project ideation for livelihood Under IETE Forum.

Event Summary:

This is one day event on Project ideation. This event gives an exposure to participants about how they can generate ideas and solutions through sessions such as Sketching, Prototyping, Brainstorming, Brain writing, Worst Possible Idea, and a wealth of other ideation techniques of project. Also gives an exposure to Design Thinking process, how live projects are designed and developed, also how students can create and implement the mini projects and main projects.

Good morning,

Dear Madam,

Greetings from all of us at the Electronics & Communication Engineering department, Shridevi Institute of Engineering & Technology, Tumkur.

Shridevi Institute of Engineering & Technology (SIET), an Institute of Higher Education was established in the year 2002 with the sole aim of imparting quality Technical Education. It is approved by AICTE & affiliated to Visvesvaraya Technological University, Belagavi, Karnataka state and presently offers Under-Graduate Programmes, Post Graduate Programmes and Ph.D. Research Programmes – covering 'Engineering & Technology', and 'Management' streams.

Bengaluru

“Technical Talk on Next Generation wireless technology”

At

Shridevi Institute of Engineering & Technology, Tumkur

On

17th May 2022

Department of Electronics and Communication Engineering at Shridevi Institute of Engineering & Technology, Tumkur in association with IETE (ISF) bengaluru has organised virtual technical talk on “Next generation wireless technology”. Using google meet app platform on may 17th 2022.

Dr.Narendra Vishwanath, princiapl SIET appreciated the efforts of department for organising technical activities.

Prof.Aizaz Ahmed Sharief , department Head , wished students to upgrade their practical exposure by attending technical session .

Event coordinator Dr.umesh G B has addressed welcome speech and discussed about importance of wireless technology in real time day to day life. Resource person Dr.Sujatha S , Professor , Christ university , Bengaluru has delivered useful information about signification of communication systems , Histroy of wireless communication and explained about future trends in wireless technology applications with real time scenarior.

Dr.Pradeep K G M , Associate Professor & ISF coordinator has expressed token of gratitude to all who involved in making the technical talk successful.

Students of ECE department Second , Third year were actively participated in this event .Prof .Raghavendra , Prof.pradeep kumar SS has wished and advised students to improve their technical knowledge in latest technologies.

7. ONLINE WORKSHOP ON NPTEL LOCAL CHAPTER AWARENESS PROGRAM

Event Conducted	: Online workshop on NPTEL Local Chapter Awareness Program
Date	: 25-05-2022
Time	: 10:00am to 1:00 pm
Targeted Audience	: 4th, 6th and 7th semester Students of ECE Department
No. Of Students participated	: 94
Resource Person	: NPTEL Local Chapter Awareness Joint initiative programme of IrTS & IISc under MHRD , Govt of India
Online workshop on	: NPTEL Local Chapter Awareness Program

Picture1: Welcome Speech addressed by EC HOD

Picture2: Event Group Photo

8. TECHNICAL TALK ON BLOCK CHAIN TECHNOLOGY

Event Conducted : Technical talk on Block chain Technology
Date : 26-05-2022
Time : 11:00am to 1:00 pm
Targeted Audience : 4th ,6th and 8th semester Students of ECE Department
VENUE : Edusat Hall
Time : 10:00 am to 12:30 pm
No. Of Students participated : 94
Resource Person : Dr. S Shitharth, Assoc. Prof. Kebri Dehar University, Ethotia
Technical talk on : Block chain Technology

Picture1: Prof.Aizaz Ahmed Sharief, department Head wished students to enhance their real time practical.

Circular

Date: 31-12-2022

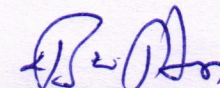

It is hereby informed to the III Semester Students that we are arranged

Expert Lecture - "Passion for Earning during Learning" By Ms. Baran Umme Aiman-Entrepreneur on 03-01-2023, all the students should attend without fail.

Venue: MBA-Seminar Hall
Time: 10.30am onwards

Coordinator

HOD-MBA

PRINCIPAL
SIET. TUMKUR.

A Report on Expert Lecture “Passion for Earning during learning”

Expert Lecture Topic	“Passion for Earning during learning”
Date	03 rd Jan 2023
Time	10.30 am onwards
Venue	MBA Seminar Hall
Expert Speaker	Ms. Baran Umme Aiman Entrepreneur, COO, Youtuber, Motivational Speaker and Writer.
Inaugurated by	Dr. Narendra Viswanath Principal Shridevi Institute of Engineering and Technology, Tumkur
Organising Chairman	Dr. K.S. Ramakrishna Head & Professor, SIET, Tumkur
Staff members	Mrs. Grace Hemalatha, Asst. Professor, Dept. of MBA, SIET, Tumkur Mr. Prathap B.N, Asst. Professor, Dept. of MBA, SIET, Tumkur Mr. Praveen Kumar T.M, Asst. Professor, Dept. of MBA, SIET, Tumkur Mrs. Bindu R, Asst. Professor, Dept. of MBA, SIET, Tumkur Ms. Divya S, Asst. Professor, Dept. of MBA, SIET, Tumkur
Target Audience	3 rd Sem MBA Students
Association with	Institute Innovation Council and Ministry of Education, New Delhi
<p>Key Takeaways of Expert Lecture</p> <p>Ms Baran Umme Aiman explained the concept of Earning During Learning for MBA Students. Earning during Learning provides opportunities for the students to earn while they are learning. She also explained how it gives hands-on experience and confidence thereby preparing them better for taking up jobs in future.</p> <ul style="list-style-type: none"> • Students know the various opportunities. • The speaker motivated students to earn while learning. • Students know the various online platforms to start their Careers while learning. • A student must make money while studying to fulfil their requirements. <p>The expert Lecture was very useful to the business management postgraduate students and people had interaction with Expert Speaker.</p> <p>The session was very interesting students gained the knowledge of Earning during Learning in the business world.</p>

About the Workshop

Blockchain Technology is an emerging technology suitable for decentralised and transactional sharing of data across a large network of untrusted participants. It is an innovative distributed ledger technology where verification data for the transactional records is cryptographically secured against tampering and stored in blocks. Each block contains details of transactions, hash of the previous block, timestamp etc. Blocks are linked with each other, leading to a Block Chain and this is stored at every node in the network. This enables transparency and gives a unique solution to the problem of trust in the digital world, leading towards decentralised trust. It has good potential to transform the logging and management of transactions in different application areas. This technology is successfully used in Bitcoin virtual currency, and it also has good potential in non-financial sectors such as Governance, healthcare, cyber security, automobiles, media, travel, hospitality, energy, smart cities, time stamping, logging of important events in a system, recording transactions, etc.

Modern information and system require high security protection on electronic data over insecure communication (Internet). Cyber security or Information Technology Security (ITC) is a field involving the protection of computer systems and the prevention of unauthorized access too. The primary objective of this course is to deliver on modern cryptographic techniques as well as hardware security concept with cybercrime issues to understand how to design secure systems for computer network model. This course moreover focuses on current emerging technology on blockchain along with future research direction in the domain of network security.

Workshop Objectives

To disseminate the knowledge of cyber security and blockchain technology among students

Outcome

This course is designed to prepare students to the federal job market for postings require knowledge of Blockchain Technology and cyber security At the conclusion of this course, the audience, students and the future developers who are involved in technological transformation will be able to:

1. Explain how blockchain technology works
2. Integrate blockchain technology into the current business processes to make them secure
3. Hands on with respect to cyber security tools

About the Talk

Now the world had become impossible to move without Information Technology. No doubt that IT fields are in its developing path. We'll get well-paying job right from the start. IT students have a lot of scope for their coming future. Since the technologies and IT sectors are increasing day by day, the need of employers are also increasing. IT also help a professional to get job opportunities in many foreign companies or top companies in India. i.e Tata Consultancy Services (TCS), Wipro Technologies, Cognizant, Yahoo!, Google, Tech Mahindra, Infosys Technologies, HP ,Capgemini, iGATE Patni, Accenture, L&T, EY, Convergys, MphasiS, Genpact, HCL Technologies and Godrej Infotech. We have lots of Advantages of IT.

The IT industry has also created significant demand in the Indian education sector, especially for engineering and computer science. In India IT and ITe'S industry is divided into four major segments – IT services, Business Process Management (BPM), software products and engineering services, and hardware. Employees from 12 Indian start-ups, such as Flipkart, Snapdeal, MakeMyTrip, Naukri, Ola, and others, have gone on to form 700 start-ups on their own, thus expanding the Indian start-up ecosystem.! India ranks third among global start-up ecosystems with more than 4,200 start-ups. IT sector can be said as a pot of chances that gives many opportunities and Advantages in IT to reach top in his/her life. Even though the IT job don't last longer, there is a hope for getting another job in the same field. There will be no problem for those who are having Experience Certificate in IT, in case of job loss.

Workshop Objectives

To disseminate the knowledge of future career scope in IT sector among students

Outcome

This course is designed to prepare students to the federal job market for postings require knowledge of “future career scope in IT sector”. At the conclusion of this course, the audience, students, and the future developers who are involved in technological transformation will be able to:

1. Apply knowledge in choosing the job role.
2. Apply skills to get select in recruitment.
3. Apply minds to grow professionally / in career

About the Course

Data structure and algorithms are two of the most important aspects of computer science. Data structures allow us to organize and store data, while algorithms allow us to process that data in a meaningful way. Learning data structure and algorithms will help you become a better programmer. You will be able to write code that is more efficient and more reliable. You will also be able to solve problems more quickly and more effectively. As applications are becoming more complex and the amount of data is increasing day by day, which may cause problems with processing speed, searching data, handling multiple requests etc. Data structure provides a way of organizing, managing, and storing data efficiently. With the help of data structure, the data items can be traversed easily. Data structure provides efficiency, reusability, and abstraction. It plays an important role in enhancing the performance of a program because the main function of the program is to store and retrieve the user's data as fast as possible.

Workshop Objectives

To disseminate the knowledge of data structure and its future directions among students

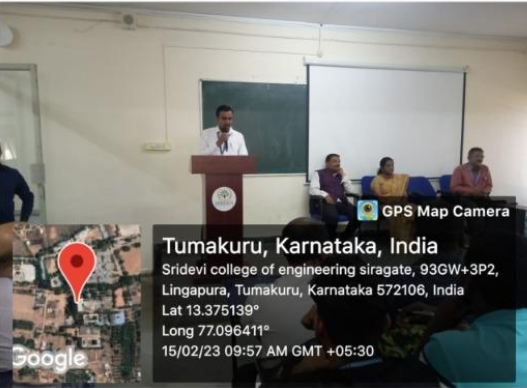

Outcome

This course is designed to prepare students to the federal job market for postings require knowledge of Data structure in future direction. At the conclusion of this course, the audience, students and the future developers who are involved in technological transformation will be able to:

1. Explain the importance of data structure.
2. Apply the Usage for its future applications.
3. Hands on with practicality and case study

About the Course

The methods used by an attacker depend on the social media platform targeted. Facebook allows users to keep their images and comments private, so an attacker will often friend a targeted user's friends or directly send a friend request to a targeted user to access their posts. If an attacker can connect to several of the targeted user's friends, then it's more likely that the targeted user will accept the friend request based on the number of connected friends.

LinkedIn is another common social media target. LinkedIn is known for business networking, and users' networks are typically filled with colleagues and other employees within the same organization. If an attacker targets a business, LinkedIn is an excellent social media site to collect business emails for a phishing attack. A large enterprise could have several networked employees who list their employer and their titles. An attacker can use this public information to find several employees who have access to financial information, private customer data or high-privilege network access. Collecting information to steal data isn't the only reason to use social media for reconnaissance. The information posted on social media could be used to obtain passwords or impersonate business users. Many online accounts allow users to reset passwords if they enter a security question. With enough information from social media posts, an attacker could guess the answer to these security questions based on the private information posted by a targeted user. Brand impersonation is another social media threat. With enough gathered information, an attacker can impersonate a business brand to trick users into sending money, divulging private information or provide an attacker with account credentials. Attackers also use this threat to perform cross-site scripting (XSS) or cross-site request forgery (CSRF) attacks. These attacks can lead to more massive data breaches and business infrastructure compromise.

Workshop Objectives

To disseminate the knowledge of social media attacks and its security issues among students

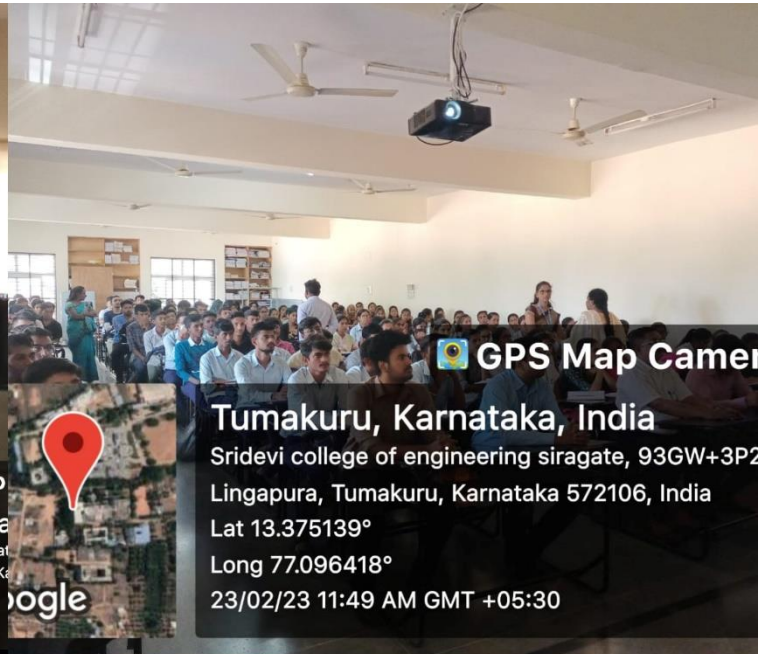

Outcome

This course is designed to prepare students to the federal job market for postings require knowledge of social media attacks and its security issues/cyber security/ At the conclusion of this course, the audience, students and the future developers who are involved in technological transformation will be able to:

1. Apply how to secure use of social media.
2. Identify the vulnerabilities and perform simple penetration testing.
3. Disseminate social media attacks and its security issues among Netzens.
