ESTD: 2002

The council meeting of Institution's Innovation Council (IIC), Shridevi Institute of Engineering & Technology was called by IIC President Dr. Narendra Viswanath on 28-08-2022 to discuss upon the formulation and function of IIC for academic year 2022-2023 & to assign roles and responsibility among newly joined council members as per the guidelines of Ministry of Education's Innovation cell.

As per the decision of competent authority, following members will be the part of IIC;

The council members discussed about the activities (IIC calendar, Celebration and Self-Driven) and features of IIC portal. The council members also discussed about collaborations within and outside the institution to accelerate the activities of IIC. The council also deliberated on quarterly action plan in synchronisation with activities and initiatives of other departments, centres and facilities in the Institute working towards promoting IPR, Innovation, Entrepreneurship and Start up.

The council unanimously decided to carry out all the IIC activities in regular basis throughout the year and meet regularly in beginning of every quarter to review the progress made in previous quarter and also to plan for upcoming quarter. The council has agreed to convene next meeting tentatively on 29-09-2022.

Signature & Seal

(IIC President & Head of the Institution)

Name: Dr. Narendra Viswanath

Place: TumaRRINCIPAL SHRIDEVI INSTITUTE OF ENGINEERING & TECHNOLOGY TUMKUR - 572106.

Kindly Note:

* Attendance sheet of all the members to be attached in this format;

Discussions and Quarterly Plan

- Dr. Narendra Viswanath, Principal, SIET, briefed the importance of establishing an IIC for the Institute.
- Mr. Girish L, gave a presentation on IIC which includes the main focus of IIC, advantages of IIC, Roles and Responsibilities in IIC etc,.
- The following faculties are identified and designated the roles and responsibilities in SIET-IIC.

SI No	Name	Role in SIET- IIC	
1	Dr. Narendra Viswanath	President	
2	Mr. Girish L	Convenor	
3	Mr. Basavesha D	Social Media Coordinator	
4	Mr. Prathap B N	IPR activity coordinator	
5	Dr. Manjula T	Innovation activity coordinator	
6	Dr. Pradeep K G M	Internship Activity coordinator	
7	Mr. Chethan M S	Start-up activity coordinator	

- Planned to Organize and Celebrate World Entrepreneurs Day on September 2nd 2022. Mr. Prathap B N is identified as the coordinator for organizing the event.
- Planned to Organize and Celebrate India Startup Day on 1st October 2022.
 Mr. Chethan M S is identified as the coordinator for organizing the event.
- It is decided to have the following meeting on a regular basis:
 - o IIC Individual Branch Coordinator shall conduct the Meeting with Faculty Members and Student Members on 5th of Every Month to plan the proposed activities and submit a report to Convener.
 - o SIET IIC Meeting shall be conducted on 15th of Every Month.
 - o General body meeting once in a Three Month (Quarterly).
- A meeting has been called to give awareness on IIC for all the faculty members and to identify the faculty and student members for SIET-IIC on 2nd September, 2022, Monday at 4:30 PM at Edusat LAB.

Time: 11AM

Event Description: Institution's Innovation Council (IIC) is an initiative of Ministry

of Education's Innovation Cell (MIC) for fostering the culture of innovation amongst Higher Education Institutes and Startups are going to be the backbone of new India. When India completes 100 years of independence, startups will have an important role," Modi said. "Country's innovators are making the country proud globally. Institution's Innovation Council (IIC-SIET, Tumakuru) along with IIC-Startup Activity Team in collaboration with Skill & Career Development Cell(S&CDC) has organized to INDIA STARTUP DAY" celebration activity through offline mode. The event in Quarter Q1 of IIC Academic Year 2022-23 on 30th September **2022.** The programme started with the Invocation song by Mis. Deepa aradhya and introduction by Dr. Narendra Viswanath, Principal and IIC-President SIET about the session and he also highlighted the opportunities for startups. Followed by the chief guest of the event Sri. C K Nagaraj, Deputy Director, DIC Tumakuru was addressing the students and said that Creative, New Innovations, Technology and Inventions with innovation Ideas and utilization of locally available resources, Funding, Benefits from government and how to register to the Startupindia.gov.in and what are the benefits of registration and what are the relief has given by government and various subsidies provided by Indian government. He was explaining clearly what are the new Guidelines for recognition of Startups and spoke about the global and Indian technical market scenario, the share of major countries in global startups. Increase awareness in various 300 most Valuable Startups in India, in terms of entrepreneurship and business, India has evolved into one of the top emerging countries in the world. And Hundreds of startup companies have been founded there in the last years, many of which are enjoying incredible success. He quoted the startups companies like Urban Company, BigBasket, Ola, CRED, Upstox, Lenskart and many more...and he was saying how Indian startup culture differs from the U.S With the emerging business opportunities in India, the biggest startups in the word are no longer just in America. India has now become a leading global startup hub just like its American counterpart. And also saying what the success rate of startups in India is. The success rate of startups can vary from country to country, but overall only 1 out of 10 startups succeed, some of their more recent reports, they even say only 1 in 12 entrepreneurs succeed. He said to students precisely why startups fail in India because of Marketing Problems- The biggest problem by far is the lack of product-market fit. Team Problems- One of them would be a lack of domain knowledge. Financial Problems- No budget and lack of funds, Tech Problems- The biggest mistake is over-investment in technology, **Operations Problems** and **Legal Problems**. And also give the information of various industries like, Micro, Small, Medium and large Enterprise and Karnataka State Small Industries

Development Corporation Limited(KSSIDC), Finally, Dr. Narendra Viswanath, Principal and IIC-President SIET appreciated the students interest and highlighted the startup opportunities to deliver few information of startups in India. Students from all the streams participated enthusiastically in the event. IIC- Startup coordinator Prof. Chethan M S, Dept of Computer Science and Engineering delivered the vote of thanks and thanks to IIC Startup activity Staff Members and Student Members and all various IIC-SIET activity coordinators, organizers and the student participants. The Celebration "INDIA STARTUP DAY" was felt useful by the students and participation was viewed as excellent.

Innovation Day

Organized by

15-10-2022

Skill and Career Development Cell and SIET-IIC

in association with

ShriTEK Innovations

Shridevi Institute of Engineering & Technology, Tumakuru

Description

 Celebration Day on "Innovation Day" was organized by the Skill and Career Development Cell and Institution Innovation Council.
 More than 100 students have actively participated in the workshop.
 Following the workshop, many students expressed an interest in learning about various technologies.

• Chief Guest:

Dr. Narendra Viswanath

Principal, SIET Tumkur

Glimpses of the Event

Report on

Shri Anveshana - 2022

Organized by

25-11-2022

Skill and Career Development Cell and SIET- IIC

in association with

ShriTEK Innovations

Shridevi Institute of Engineering & Technology, Tumakuru

Description

Our institution strives to cater to the overall developmental needs of the students and thus organizes various co-curricular activities every year. One such important even held in the institution was Shri Anveshana 2022. On 25th Nov 2022, a science talent hunt program was conducted in a large scale in the institution's campus. Students of different PU Colleges in and around Tumkur and across the state of Karnataka were invited to take active participation in the event. Three different interesting contests were held as part of the event, aiming to gather bright students from different institutes and provide them a platform where they can showcase their talent and win attractive prizes. Firstly there was a story narration completion wherein the students could narrate a story by choosing a theme of their interest. The themes were allowed from the students' own life experiences, from the lives of great people or great scientists, or from any readings - fictional, factual or creative ones. The contest aimed at giving wings to the imagination of the young students and to give them an opportunity to show their oratory or presentation skills. The students were instructed to participate in teams of two to encourage team working.

The second contest was science quiz competition wherein the students were required to answer science questions in CET – PCM pattern. The first round was written and the second round was oral. Teams of two students took part in the event and performed enthusiastically.

The third contest was poster or model presentation on science themes. Example themes were given, but the students were given the liberty to choose any other themes if required. The students prepared the posters or models in advanced and presented them in our campus. The students also actively interacted with the visitors, explained the concept behind their posters or models and answered the questions posed.

One faculty representative from every Institute was requested to co-ordinate the entire registration process and to accompany your students to the event. A detailed set of instructions – rules and regulations were given to the participants well in advance. Their performances in the

contests were evaluated by expert panels of judges. Prizes were given to the winners and participation certificates were given to all the students.

The event got an overwhelming response from various institutions within and outside the city. Around 400 students in total participated in the event.

Along with the contests, a project exhibition was arranged wherein some innovative projects done by the students of our Institutions were exhibited to the PU students coming from other colleges. This facilitated interaction between our engineering students and the science enthusiast students of various PU colleges. This boosted the confidence of our students while presenting and explaining their projects and provided a good exposure to the students of PU Colleges, thus enabling mutual benefit and exchanges. This was a classic example of institution-institution interaction

In the inaugural function of the program that was held in the auditorium, one of the popular educationalist Mr. Pradeep was felicitated. Mr. Pradeep shared his valuable knowledge and experience with the students and provided valuable inputs. The students were inspired by Mr. Pradeep's talk and got motivation to excel in their studies. In the valedictory function, two more luminaries in the field of education – Mr. Ananthnarayan and Mr. Vasudev were felicitated. Both of them shared valuable insights with the students and motivated them. The winners were distributed prizes by the diginitaries.

Student representatives from different departments of our institution volunteered in the event. Those students got an excellent opportunity to learn planning, coordination, event management, stage management, and other management skills.

Various faculty committees were formed and various responsibilities were delegated to them. All those committees under the supervision and guidance of our beloved Principal worked in tandem with each other to make the even a grand success.

Tumkur Smart City Visit

Organized by

19-09-2022 & 20-09-2022

Skill and Career Development Cell and SIET- IIC in association with ShriTEK Innovations

Shridevi Institute of Engineering & Technology, Tumakuru

Description

Tumkur smart City Data center visit by 3rd semester AI & DS and ECE students as a part of internship. Tumakuru Smart City Limited (TSCL), Tumakuru Smart City Limited (TSCL), is in and for a City having approximated of 1354.97 acres of City based development located 70 KM from Bengaluru with a minimum of 1800 Crore investment under Industries. TSCL, incorporated under Company's Act 2013 on 06/02/2017, Karnataka. The Projects under the Smart City Proposal envisages to provide the Tumakuru citizens, a Safety enabled, Smart Transit, Better Transportation and Green Infrastructure.

Smart City Mission:

Transforming Tumakuru from a mere Edge City Of Bengaluru to the Most Preferred Destination within the region with a strong focus on economic development and provision of enhanced Connectivity, high Quality of Life, Ecological integration and Inclusive development.

TECH TALK ON

SOCIAL MEDIA ATTACKS AND ITS SECURITY ISSUES

Date & Venue: 23rd February 2023, @CSE Seminar Hall

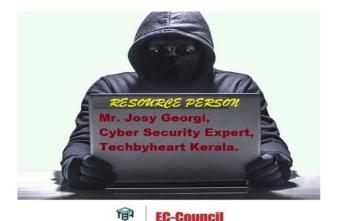

Starts @11:00 AM

Academic Year	2022-23	Targeted Audience from	SIET 3 Rd Sem Students
Name of the Event	1-Day workshop	Number of Participants	100 +
Date of Conduction	23 rd Feb 2023	Time	11-00 to 1-00PM 2:00 PM to 5:00 PM
Venue	CSE Seminar Hall	Resource	Er. Jossy Georgi

Dr. Basavesha D. HOD-CSE, SIET.

Best Wishes

Dr. Narendra Viswanath

Dr. Suhas G.K. HOD-ISE, SIET.

Principal SIET, & Member, Dr. Charan K.V. HOD-AI & DS,SIET. Academic Senate, VTU.

About the Course

The methods used by an attacker depend on the social media platform targeted. Facebook allows users to keep their images and comments private, so an attacker will often friend a targeted user's friends or directly send a friend request to a targeted user to access their posts. If an attacker can connect to several of the targeted user's friends, then it's more likely that the targeted user will accept the friend request based on the number of connected friends.

LinkedIn is another common social media target. LinkedIn is known for business networking, and users' networks are typically filled with colleagues and other employees within the same organization. If an attacker targets a business, LinkedIn is an excellent social media site to collect business emails for a phishing attack. A large enterprise could have several networked employees who list their employer and their titles. An attacker can use this public information to find several employees who have access to financial information, private customer data or high-privilege network access. Collecting information to steal data isn't the only reason to use social media for reconnaissance. The information posted on social media could be used to obtain passwords or impersonate business users. Many online accounts allow users to reset passwords if they enter a security question. With enough information from social media posts, an attacker could guess the answer to these security questions based on the private information posted by a targeted user. Brand impersonation is another social media threat. With enough gathered information, an attacker can impersonate a business brand to trick users into sending money, divulging private information or provide an attacker with account credentials. Attackers also use this threat to perform cross-site scripting (XSS) or cross-site request forgery (CSRF) attacks. These attacks can lead to more massive data breaches and business infrastructure compromise.

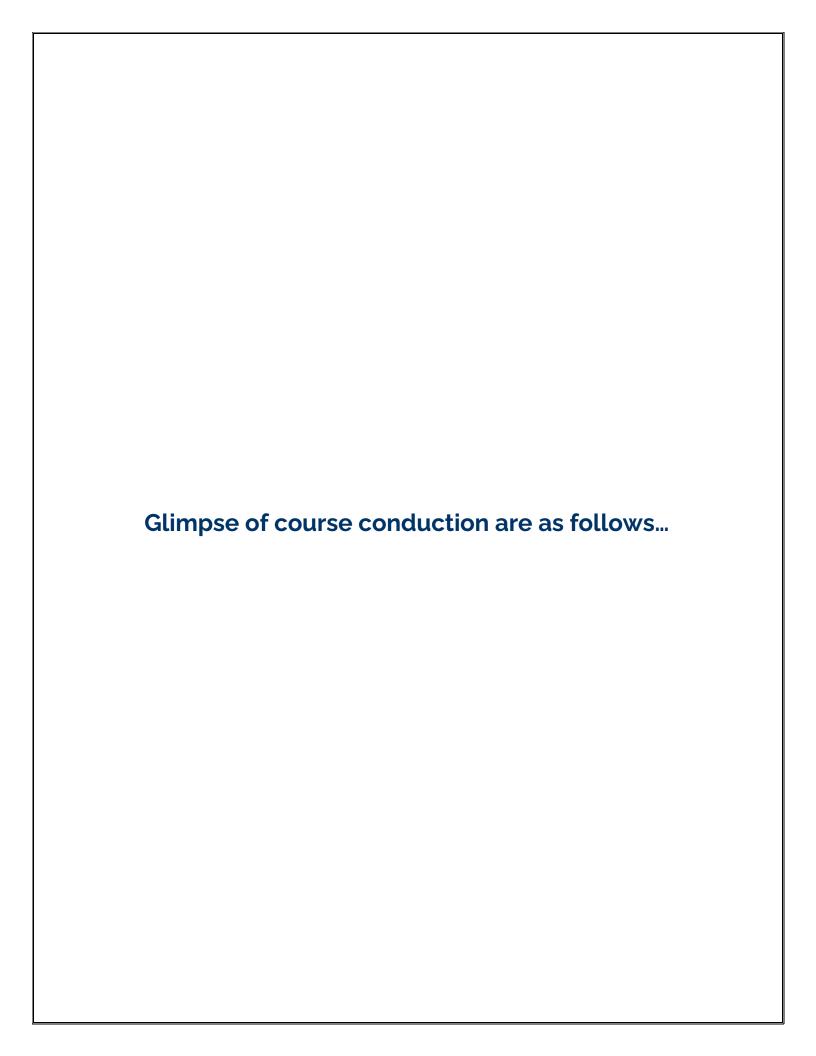

Workshop Objectives

To disseminate the knowledge of social media attacks and its security issues among students

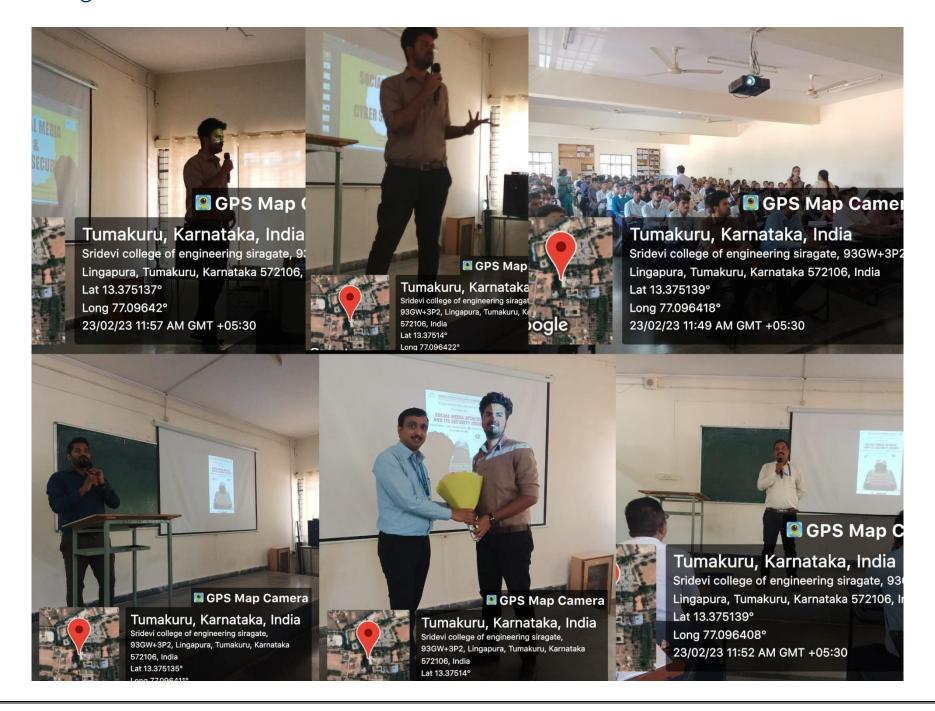

Outcome

This course is designed to prepare students to the federal job market for postings require knowledge of social media attacks and its security issues/cyber security/ At the conclusion of this course, the audience, students and the future developers who are involved in technological transformation will be able to:

- 1. Apply how to secure use of social media.
- 2. Identify the vulnerabilities and perform simple penetration testing.
- 3. Disseminate social media attacks and its security issues among Netzens.

TECHNICAL TALK ON

"Power Quality Control in Converters"

Department of Electronics & communication engg, Shridevi Institute of Engineering & technology ,tumkur has organised technical talk on "Power Quality Control in Converters" on 19-12-2022 (Monday)

Prof .Sharief Department head has delivered welcome speech addressed gatherig about resource person to students.

 $Dr. Naveen \ Kumar \ G \ N \ , \ Head \ Enable \ India \ , \ Innovation \ Ambassador \ MHRD \ (Govt \ of \ India) \ , \\ CMR \ Institute \ of \ Technology, \ Bengaluru \ has \ delivered \ technical \ talk.$

The student of ECE department department has participated in the event. The resource person has Explained about the importance of Power Quality Control in Converters and carrer opportunities in the area of power electronics

Dr.Umesha G B Associate Professor and event coordinator has addressed vote of thank to resource person, and all faculty members and student.

First year and Prefinal year were participated in the event and actively interacted with resource person.

Venue: Edusat Hall

Date of Event:19-12-2022 (Monday)

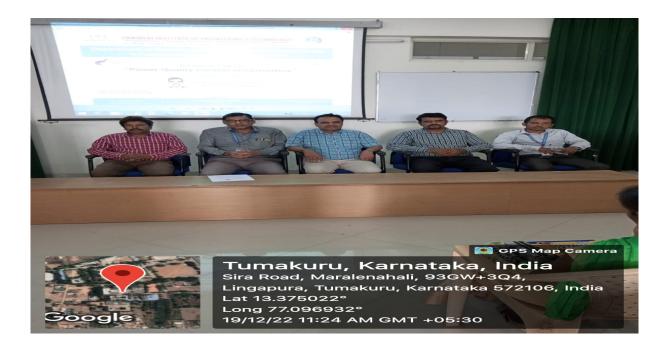

ECE students participated in the technical talk

Dr.Umesha G B Event coordinator delivering welcome speech

Prof.A A Sharief HOD-ECE Honouring Dr.Naveen Kumar G N CMR Institute of Technology, Bengaluru.

Faculty members of ECE department attended technical talk.

About the Course

Data structure and algorithms are two of the most important aspects of computer science. Data structures allow us to organize and store data, while algorithms allow us to process that data in a meaningful way. Learning data structure and algorithms will help you become a better programmer. You will be able to write code that is more efficient and more reliable. You will also be able to solve problems more quickly and more effectively. As applications are becoming more complex and the amount of data is increasing day by day, which may cause problems with processing speed, searching data, handling multiple requests etc. Data structure provides a way of organizing, managing, and storing data efficiently. With the help of data structure, the data items can be traversed easily. Data structure provides efficiency, reusability, and abstraction. It plays an important role in enhancing the performance of a program because the main function of the program is to store and retrieve the user's data as fast as possible.

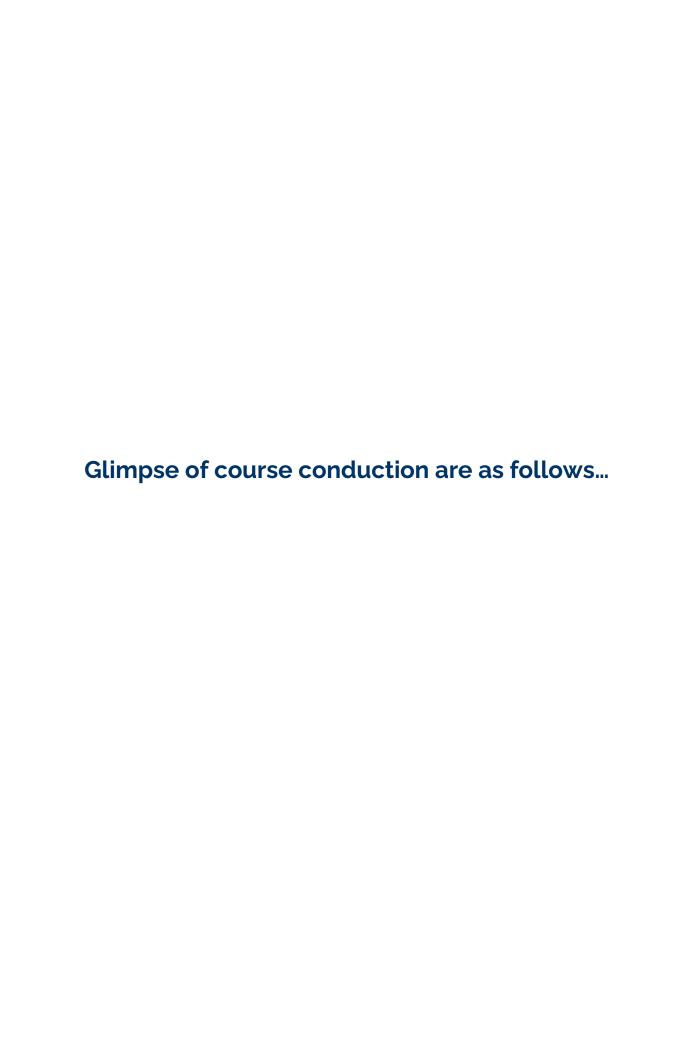

Workshop Objectives

To disseminate the knowledge of data structure and its future directions among students

Outcome

This course is designed to prepare students to the federal job market for postings require knowledge of Data structure in future direction. At the conclusion of this course, the audience, students and the future developers who are involved in technological transformation will be able to:

- 1. Explain the importance of data structure.
- 2. Apply the Usage for its future applications.
- 3. Hands on with practicality and case study

About the Workshop

Blockchain Technology is an emerging technology suitable for decentralised and transactional sharing of data across a large network of untrusted participants. It is an innovative distributed ledger technology where verification data for the transactional records is cryptographically secured against tampering and stored in blocks. Each block contains details of transactions, hash of the previous block, timestamp etc. Blocks are linked with each other, leading to a Block Chain and this is stored at every node in the network. This enables transparency and gives a unique solution to the problem of trust in the digital world, leading towards decentralised trust. It has good potential to transform the logging and management of transactions in different application areas. This technology is successfully used in Bitcoin virtual currency, and it also has good potential in non-financial sectors such as Governance, healthcare, cyber security, automobiles, media, travel, hospitality, energy, smart cities, time stamping, logging of important events in a system, recording transactions, etc.

Modern information and system require high security protection on electronic data over insecure communication (Internet). Cyber security or Information Technology Security (ITC) is a field involving the protection of computer systems and the prevention of unauthorized access too. The primary objective of this course is to deliver on modern cryptographic techniques as well as hardware security concept with cybercrime issues to understand how to design secure systems for computer network model. This course moreover focuses on current emerging technology on blockchain along with future research direction in the domain of network security.

Workshop Objectives

To disseminate the knowledge of cyber security and blockchain technology among students

Outcome

This course is designed to prepare students to the federal job market for postings require knowledge of Blockchain Technology and cyber security At the conclusion of this course, the audience, students and the future developers who are involved in technological transformation will be able to:

- 1. Explain how blockchain technology works
- 2. Integrate blockchain technology into the current business processes to make them secure
- 3. Hands on with respect to cyber security tools

Title of the Programme: Workshop on Moodle - Learning Management System to Enhance Teaching Learning Process

Organized By: SIET- IIC and Skill and Career Development Cell

Patrons:

Dr. M R Hulinaykar

Chairman & Managing Trustee Sri Shridevi Charitable Trust, Tumakuru

Mr. MS Patil

Director, HR & IT Sri Shridevi Charitable Trust, Tumakuru

Dr . Narendra Viswanath

Principal, SIET, Tumakuru Academic Senate Member, VTU Belagavi

Resource Persons: Prof. Girish L

Assistant Professor, Dept of CSE, SIET Tumkur

Date: 09-02-2023

Description:

Workshop on MOODLE aims at developing administrative skills on Moodle platforms and online teaching and assessment skills using MOODLE Learning Management System (LMS) for teachers and administrators. This workshop will sensitize the participants how to use the tools available in Moodle to develop unique courses for many kinds of institutions.

The workshop also leverages Moodle's unique capacity to seamlessly bring together instructional materials, dynamic activities, social interaction, and student management functions. Following the best practices in designing a Moodle course, the participants will also incorporate strategies to accommodate multiple learning styles. They will also accommodate the emerging instructional technologies and provide a strategy for a wide variety of course modalities, including self-paced independent study, cohort-based courses with student-instructor interaction, and highly collaborative student-centered courses.

Objective:

- to adopt Moodle-Platform as an adjunct to face-to-face teaching and to teach in a full online or distance learning context;
- to understand the process of planning, designing and delivering online courses;
- to create better and active communication and collaboration with the students;
- to design contemporary assessment methods.

09

FEB 2023

TIME: 3PM-5PM

VENUE: SKILL & CAREER DEVELOPMENT CELL, SIET

Celebration Day Report on

National Science Day

28-02-2023

Organized by

Skill and Career Development Cell and SIET- IIC in association with

ShriTEK Innovations

Shridevi Institute of Engineering & Technology, Tumakuru

Description

Ever since 1987, our country has been celebrating the National Science Day on 28th February to commemorate the discovery of the 'Raman Effect' by one of the renowned Physicist of India- Sir CV Raman.

On the occasion of National Science Day, we at Shridevi Institute of Engineering and Technology conducted Science day celebrations in our college on 28th February 2023.

Science day celebrations started with the inaugural session on 28th February 2023 with the lighting of the lamp and paying homage to Sir C.V.Raman. 60 students and science faculty of our college and science teachers from various schools attended the gathering. Our college principal Dr. Narendra Viswanatah presided over the session and gave a brief introduction about the significance of celebrating National Science Day on 28th February.

The grand success of this science day celebrations is due to the active role played by the organizing committee members and the team work of the ever supporting staff and students of this college Inspired by the feeling of Sir C.V Raman and encouraging the women students to take up science as their future.

Glimpses of the Event
