

INDUSTRIAL DRIVES

Industrial Visits is an integral part of the professional course, during which students visit companies and get insight regarding the internal working environment of a company and how a company functions, as well as useful information related to the practical aspects of the educational course which cannot be visualized in lectures. The industrial visit is considered one of the most tactical methods of teaching.

It provides students with an opportunity to learn practically through interaction, working methods and employment practices. It gives exposure from an academic point of view. Imparting experiential learning that happens beyond the precincts of an educational institute can attain the above-stated objective.

The primary goal of these visits is to help students gain practical knowledge over and above the theoretical concepts that they learn in class and to help them in becoming efficient and effective engineers and managers in the industry.

Shridevi Institute of Engineering & Technology will encourage students by arranging field trips/industrial visits to students to improve real time practical exposure of latest technology.

Dear Sir,

We introduce ourselves as Shridevi Institute of Engineering and Technology, Tumkur established in 2002. We offer UG and PG courses affiliated to Visvesaraya Technological university (VTU) Belagavi, Karnataka. As part of educational tour, our students are very eager to visit to your prestigious organisation to upgrade the practical knowledge to meet the industrial standards to make themselves industry ready. In this regard, I am requesting you to grant permission to visit at your comfortable date and timings. Arrange one employee to guide our student on that day of visit. Kindly do the needful. We will follow your organization guidelines and safety measures at your organisation. Waiting with an anticipation. Approximated strength of students willing to visit is 40.

Thanking you sir,

Yours Sincerely

Dear Sir,

We introduce ourselves as Shridevi Institute of Engineering and Technology, Tumkur established in 2002. We offer UG and PG courses affiliated to Visvesaraya Technological university (VTU) Belagavi, Karnataka. As part of educational tour, our students are very eager to visit to your prestigious organisation to upgrade the practical knowledge to meet the industrial standards to make themselves industry ready. In this regard, I am requesting you to grant permission to visit at your comfortable date and timings. Arrange one employee to guide our student on that day of visit. Kindly do the needful. We will follow your organization guidelines and safety measures at your organisation. Waiting with an anticipation. Approximated strength of students willing to visit is 50.

Thanking you sir,

Yours Sincerely

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

A REPORT ON ONE DAY INDUSTRIAL VISIT SMART CITYDATA CENTER, TUMAKURU

Aim for Industrial Visit:

Industrial visit is considered as one of the tactical methods of teaching. The main reason behind this industrial visit was to let students know things practically through interaction, working methods and employment practices. Moreover, it gives exposure from academic point of view. Main aim of industrial visit is to provide an exposure to students about practical working environment to give awareness on Traffic maintenance advance technology, air pollution. They also provide students a good opportunity to gain full awareness about industrial practices.

Details of Industrial Visit are as below:

Name: Smart city Data Center, Tumakuru

Date of Visit: 20th Oct 2022

Year: II year - 60 Students

Faculty Name: Mr. Chethan M S & Mrs. Veena N D, Dr. Charan K V

Description of the Visit:

Department of Computer Science and Engineering had arranged a one day industrial visit to Smart city Data Center on 20th Oct 2022, 60 students of second year and three faculties had taken part. Tumakuru Smart city Data Center, was one of the best place to visit for the engineering students who have research as their passion. Tumakuru Smart city does research on various fields like Intelligent Transport System , Integrated City Management and Control Center, Skill development through NCC Simulator & Smart Lounge etc. Tumakuru Smart city Data Center also offers wide variety of research for Ph.D ,M.tech, & B.E and also for the school students.

First we went to the Smart city Data Center room where we were explained about the various projects undergoing in smart city. We also came to know about the working of EFKON India was designated as the Master System Integrator (MSI) to implement smart city initiatives at Tumkur for better traffic management, control, and smooth traffic flow. The project as a part of ICMCC was divided into three categories along with its components respectively.

Category 1: Implement, command, and control

Which includes implementation of Integrated City Management Control Centre (ICMCC), Satellite Control Centre, Intelligent Signaling, CCTV City Surveillance, Deployment of Applications of Data Centre, Environment Monitoring System, Variable Messaging System, 'One Tumakuru' Mobile App, and Emergency Response System?

Category 2: Integrate and view in ICMCC

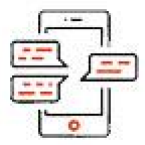

which includes implementation of Intelligent Transport System, ICT-enabled Solid Waste Management, Tumakuru Smart City Lounge, and Smart Metering – Water Supply.

Category 3: Integrate and control in ICMCC

which includes implantation of Smart Parking and Street Light Control System. Through these

components, city authorities would provide core infrastructure with access to services and quality of life to the citizens through smart solutions. EFKON India successfully implemented the Integrated City Management Control Centre (ICMCC) with elements like Connectivity, Console Layout, Environmental Design, Audio-Visual Design along with Indicators and Controls.

EFKON India also helped in development and implementation of the below Smart City solutions

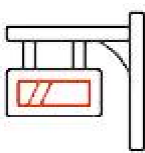

'One Tumakuru' Mobile App

Emergency Response System

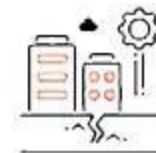

Environment Monitoring System

Variable Messaging System (VMS)

Satellite Control Centre

Disaster Recovery Centre

At last we went to the Intelligent Transport System and On the whole Smart city Data Center was a memorable experience for the students who had passion in research.

OUTCOME OF THE VISIT:

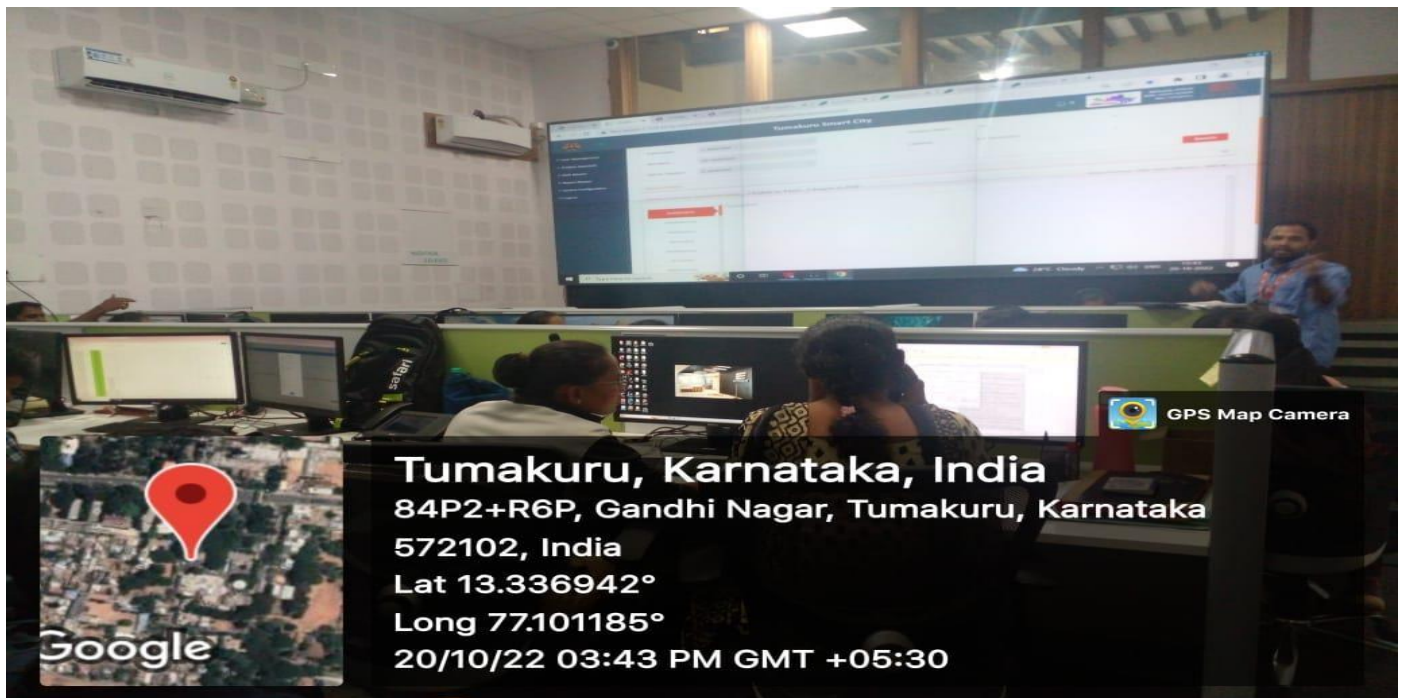

Students gained the knowledge about traffic maintenance and EFKON India successfully implemented the Integrated City Management Control Centre (ICMCC) with elements like Connectivity, Console Layout, Environmental Design, Audio-Visual Design along with Indicators and Controls.

Name of the Event: Industrial Visit

Date of Conduction: 15th July 2023

Time: 9:00 AM to 3:00 PM

Number of Participants: 45

Venue: Infosys Limited, Mysore,
Infosys Rd, Hebbal Industrial Estate, Hebbal, Mysuru,
Karnataka 570027

The listed faculty accompanied:

1. Prof. Chethan M. S
2. Dr. Manjula T
3. Prof. Merlin B
4. Prof. Kotrama Mathada

Event Coordinator: Prof. Chethan M S

Assistant Professor
Dept of CSE
SIET, Tumakuru.

Objectives:

The objective of an industrial visit is to provide students an insight in to the internal working of companies. We know, theoretical knowledge is not enough for making a good professional career.

Overview about Industrial Visit:

Industrial visits serve as an excellent platform to learn for students pursuing higher education and they help in bridging the gap between mere classroom learning and the actual work conditions. Our college has industrial visits as part of their curriculum to help inculcate the practical workplace environment to the students and to render a holistic education to them. It gives them exposure to current work practices as opposed to possibly theoretical knowledge being taught at college. Industrial visits provide an excellent opportunity to interact with industries and know more about industrial environment.

Industrial visit was arranged by Department of Computer Science and Engineering, Shridevi Institute of Engineering and Technology, Tumkur at Infosys Limited Mysore on 15/07/2023 for the students of 3rd year with an objective of providing students functional opportunity in sector like Information Technology.

The journey started from our college campus at 4:30 am which included four faculties and forty five students. The destiny was Infosys Limited located at outskirts of Mysore city. We reached campus at 9am. After the security check at Gate 2 we were greeted by Mr. Shambu, Senior Project Manager at Infosys Ltd, Mysore. He along with Mr. Amith, System Engineer took our team for a campus tour before the induction started.

The campus tour was mesmerizing, the greenery, the infrastructure, the food court, the cleanliness and its maintenance; the huge Gate, etc drew our attention. Global education center was the center of attraction, this building consists of seven floors, and it can accommodate 14000 trainees at a time. The library was the best motivational spot. Several socio-economic inspirational contents were explained throughout the campus tour such as rain water harvesting, disciplines to be practiced, safety measures to be followed, plantation of trees, recycle of water, employee care center, guest house, etc.

The campus stretches for over 400 acres, but after covering few Software Development Blocks, we took a break having tasty deserts of Loyal World. Thereafter, as we entered the Multiplex, the real intention of Industrial visit began. Videos about the company origin, responsibilities, activities were displayed which left us spell bound. Mr. Keerthiraj, Mr. Shambhu, Mr. Amar, Mr. Amith and few others gave a wonderful session about the company and its projects.

Our students got an opportunity to interact with Senior Members of the company and clarified few doubts about their career. There was a stream of deep insight and a positive drive of energy loaded into our students to enroll into Springboard courses and prepare themselves for placement in upcoming days. After induction, students hurriedly walked towards Arena Food Court to have delicious lunch. We observed more than six food courts each with capacity of 1000 members. Mr. Amith led us till our exit security check and we bid bye to the huge inspiring campus.

We also noticed that our students walked proudly out of the Infosys Campus. Then our journey turned towards at Ranganatittu Bird Sanctuary. We bought tickets for entrance, parking and boating. Students enjoyed watching birds, crocodiles, played in the park, took photos, and spent some time in Souvenir shop.

We started return journey around 5pm, took a break of high tea in Maddur tiffans and reached back our college campus at 9pm. At the end of the day we had a good experience and learnt many things from the visit.

Few snapshots of the Industrial Visit:
