Sir,

Sub: Inviting for a Technical Talk as resource person -reg.,

Greetings from Shridevi Institute of Engineering and Technology (SIET), Tumakuru". The Department of Civil Engineering of our Institute is Inviting you as a resource person for giving a technical talk on **"Sustainable Materials in Concrete"** during the occasion of Inaugurating **"SIET-ICI-Student Chapter** "opening on 17th May 2022. Please find enclosed the Invitation of **"SIET-ICI-Student chapter"**. The audience for the talk will be our 4th, 6th and 8th Semester Civil Engineering students.

This is for your kind information and needful.

Thanking You

(Dr. G. Mahesh Kumar) 10/05/22

Department of Electronics & Communication Engineering in Association with IETE(ISF) Bengaluru

Technical Talk on " BLOCKCHAIN TECHNOLOGY"

At

Shridevi Institute of Engineering & Technology, Tumkur

On

26th May 2022

Department of Electronics and Communication Engineering at Shridevi Institute of Engineering & Technology, Tumkur in association with IETE (ISF) bengaluru has organised virtual technical talk on "Blockchain Technology". Using google meet app platform on may 26th May 2022.

Dr.Narendra Vishwanath, princiapl SIET appreciated the efforts of department for organising technical activities.

Prof.Aizaz Ahmed Sharief , department Head , wished students to enhance their real time practical exposure by attending technical session .

Event coordinator Dr.umesha G B has addressed welcome speech and discussed about importance of Blockchain Technology in real time day to day life. **Resource person Dr.S.Shitharth, Associate Professor , Kebri Dehar University , Ethopia** has delivered useful information about importance of blockchain technology , network security and bitcoin . E xplained about future trends Blockchain technology applications with real time scenario.

Dr.Pradeep K G M , Associate Professor & ISF coordinator has expressed token of gratitude to all who involved in making the technical talk successful.

Students of ECE department Second , Third year were actively participated in this event .Prof .Raghavendra , Prof.pradeep kumar SS has wished and advised students to improve their technical knowledge in cutting edge technologies.

Venue: Edusat Hall

Place : SIET Campus

TECHNICAL TALK ON

"ADVANCEMENTS IN DRONE TECHNOLOGY"

&

MOU SIGNING - SHRIDEVI INSTITUTE OF ENGINEERING & TECHNOLOGY, TUMKUR BETWEEN VIMANNA LABS INDIA PVT, LTD.CHENNAI.

Department of Electronics & communication engg, Shridevi Institute of Engineering & technology ,tumkur has organised technical talk on advancment in drone technology on 28/04/2022 (Thursday). Prof .Sharief has delivered welcome speech addressed gatherig about resource person to students.

Mr.Shri.Bharathprabhu chief operating officer, Vimanna labs india pvt, Ltd. has delivered technical talk on topic "advancements in Drone technology" .

The student of ECE department and Mechanical department has participated in the event. The resource person has gave importance of drones, applications drones, basic requirement and guidelines to operate drones. Explained about significance of different types drone in various fields like agriculture, military and teclecommunication for the betterment of society.

On the completion of technical talk, department of Electronic s& communication engg has signed Memorandum of Understanding MoU with Vimanna Labs india pvt.Ltd.

Dr.Narendra Viswanath Principal, SIET,Tumkur has addressed the students how to make use of MoU collaboration for technical development of engineeirng education. MOU signing process happened at Edusat hall infront of students. MoU document has exchanged between Principal Dr.Narendra Viswanath and Shri .bharathprabhu chief operating officer, Vimanna labs india pvt ,

LIST OF DEPATMENTAL ACTIVITIES PERFORMED IN EVEN SEMESTER 2021-2022

1. Technical Talks and Seminars

A 2 Day Guest Lecture on **"Machine Learning Techniques"** by Ms Ashwini BP &3 Associates

Expert talks :

"Technical talk on Industry 4.0." By Dr Narendra Viswanath

"Future IT trends for Career" by Gowtham Shigoankar, Head,Development Team,Silicon Microsystem

2. Workshops/Symposiums

"Two days workshop on R-Programming"were organized by invitingresource person Dr. Sunitha N R, Professor, Dept of CSE, SIT, Tumkur.(5th sem Students) Date:20 to 21st Sep 2021.

A Two day workshop on "**R- Programming**" was conducted by CSE Department under CSI-SIET student chapter in SIET, Tumakuru from 20-09-2021 to 21-09-2021for Engineering students. The objective of this workshop was to train the students to develop software using R – Language, which helps in statistical computing , design and data analysis in Big Data.

PRINCIPAL
SIET., TUMAKURU.

3. **Expert Lecture on**

"Block Chain Technology"

Date 5th May 2022

Resource Person: Devi Prasad Choudhury

The Expert lecture mainly helps students in knowing the block chain technology and how it is readily accepted in the market or industry to impart knowledge in a decentralized/distributed and public digital ledger that is used to record transactions across many computers and record cannot be altered in block chain.

4. **Technical Talk on**
"AWS & Cloud Computing"
Date: 6 th July 2022

was delivered by Mr. Pramod B N- 2 Guinness World Record Holder currently working as a AWS Freelance Corporate Trainer The Computer Science and Engineering department has organized Technical Talk on "Amazon Web Service and Cloud Computing" for 4 th & 6th semester CSE & ISE students on 6 th July 2022(Wednesday). Our expert, Mr. Pramod B N has extreme knowledge of AWS and cloud computing and he is working as a Associate Engineer in IN 4.0 Group, United Kingdom as a Contractor Role. Mr. Pramod B N discussed Cloud computing is the distribution of computing services via the Internet (the cloud), including servers, storage, databases, networking, software, analytics, and intelligence, in order to provide faster innovation, more flexible resources, and economies of scale. You typically only pay for the cloud services you use, which helps you reduce operating expenses, improve infrastructure efficiency, and scale as your business grows.

About the Talk

Now the world had become impossible to move without Information Technology. No doubt that IT fields are in its developing path. We'll get well-paying job right from the start. IT students have a lot of scope for their coming future. Since the technologies and IT sectors are increasing day by day, the need of employers are also increasing. IT also help a professional to get job opportunities in many foreign companies or top companies in India. i.e Tata Consultancy Services (TCS), Wipro Technologies, Cognizant, Yahoo!, Google, Tech Mahindra, Infosys Technologies, HP, Capgemini, iGATE Patni, Accenture, L&T, EY, Convergys, MphasiS, Genpact, HCL Technologies and Godrej Infotech. We have lots of Advantages of IT.

The IT industry has also created significant demand in the Indian education sector, especially for engineering and computer science. In India IT and ITe'S industry is divided into four major segments – IT services, Business Process Management (BPM), software products and engineering services, and hardware. Employees from 12 Indian start-ups, such as Flipkart, Snapdeal, MakeMyTrip, Naukri, Ola, and others, have gone on to form 700 start-ups on their own, thus expanding the Indian start-up ecosystem.! India ranks third among global start-up ecosystems with more than 4,200 start-ups. IT sector can be said as a pot of chances that gives many opportunities and Advantages in IT to reach top in his/her life. Even though the IT job don't last longer, there is a hope for getting another job in the same field. There will be no problem for those who are having Experience Certificate in IT, in case of job loss.

Objectives

To disseminate the knowledge of future career scope in IT sector among students

Outcome

This course is designed to prepare students to the federal job market for postings require knowledge of "future career scope in IT sector". At the conclusion of this course, the audience, students, and the future developers who are involved in technological transformation will be able to:

1. Apply knowledge in choosing the job role.
2. Apply skills to get select in recruitment.
3. Apply minds to grow professionally

About the Talk

The methods used by an attacker depend on the social media platform targeted. Facebook allows users to keep their images and comments private, so an attacker will often friend a targeted user's friends or directly send a friend request to a targeted user to access their posts. If an attacker can connect to several of the targeted user's friends, then it's more likely that the targeted user will accept the friend request based on the number of connected friends.

LinkedIn is another common social media target. LinkedIn is known for business networking, and users' networks are typically filled with colleagues and other employees within the same organization. If an attacker targets a business, LinkedIn is an excellent social media site to collect business emails for a phishing attack. A large enterprise could have several networked employees who list their employer and their titles. An attacker can use this public information to find several employees who have access to financial information, private customer data or high-privilege network access. Collecting information to steal data isn't the only reason to use social media for reconnaissance. The information posted on social media could be used to obtain passwords or impersonate business users. Many online accounts allow users to reset passwords if they enter a security question. With enough information from social media posts, an attacker could guess the answer to these security questions based on the private information posted by a targeted user. Brand impersonation is another social media threat. With enough gathered information, an attacker can impersonate a business brand to trick users into sending money, divulging private information or provide an attacker with account credentials. Attackers also use this threat to perform cross-site scripting (XSS) or cross-site request forgery (CSRF) attacks. These attacks can lead to more massive data breaches and business infrastructure compromise.

Objectives

To disseminate the knowledge of social media attacks and its security issues among students

Outcome

This course is designed to prepare students to the federal job market for postings require knowledge of social media attacks and its security issues/cyber security/ At the conclusion of this course, the audience, students and the future developers who are involved in technological transformation will be able to:

1. Apply how to secure use of social media.
2. Identify the vulnerabilities and perform simple penetration testing.
3. Disseminate social media attacks and its security issues among Netzens.
