

VTU e-Shikshana programme

VTU e-Shikshana programme is an advanced multi-modal, multi-platform, collaborative e-learning platform which allows course experts to teach or interact with a large number of students across VTU affiliated colleges on a real-time basis through live audio video streaming and synchronized content sharing. e-Shikshana allows the course experts to perform live evaluation of the learners and to get real-time feedback from attendees on the go. e-Shikshana can also act as an online meeting tool that can support online social collaboration and interactions with multiple colleges from various affiliated colleges simultaneously.
